Joint Session of Assembly  
and Senate Committees  
on Question Called

Agreement Reached on Bill  
Restricting State as  
Constitution Directs

BY KYLE D. PALMER  
"Times" Staff Correspondent

SACRAMENTO, March 11.—The first definite move looking to possible agreement on a bill reappointing the membership of the California Legislature was taken today when members of the Senate and Assembly reapportionment committees met and agreed to conduct a joint session of the two committees within a few days to consider the subject.

At this meeting, it is understood, a proposal will be made by those supporting constitutional reapportionment that a constitutional measure be adopted to affect the legislative membership in 1927, 1929 and 1931 and that a proposed amendment to the constitution changing the method of representation in the State Senate be submitted in November, 1926, to become effective, if adopted, in 1927.

The proposed amendment would retain the present constitutional provision for electing members of the Assembly on a basis of the general population units, but would provide that no three counties in the State shall have a total membership in the Senate in excess of fifteen.

**BALANCED CONTROL.**  
This provision, backed by the rural district representatives, would prevent control of the Legislature by the representatives of Los Angeles, San Francisco and Oakland and would, in effect, leave control of the lower house to the three metropolitan areas while transferring control of the upper house to the rural population of the State.

Because of the fact that two-thirds of the Legislature have refused to obey the constitutional mandate requiring reapportionment, the Legislature has taken every ten years, those willing to support a change in the reapportionment statute under the proposed outlined will insist that some form of enforcement shall be attached to the amendment.

It has been suggested that the most desirable enforcement clause would be a provision that the State Supreme Court shall reapportion in the event of failure or refusal of the Legislature itself to act. City Attorney Howard of Pasadena, ostensible author of the bill, is reported to have said that he would support such a provision.

## THE THINKER

A Long Way After Rodin's Famous Statue.

Chicago today en route to Milwaukee.

He has just started to talk about what is wrong with the Air Service, he said, as he descended from the train with Mrs. Mitchell.

"Secretary of War Weeks is a nice old man," Gen. Mitchell said in response to questions. "What can a civilian do to help the Air Service? He is simply a politician."

Gen. Mitchell has advocated that the Air Service be a distinct division, apart from the Army and Navy.

SENATE CONFIRMS  
NOMINATION OF FECHT  
WASHINGTON, March 11.—The Senate today confirmed the nomination of Lieut.-Col. James E. Focht to be assistant Chief of the Army Air Service with the rank of brigadier general.

Col. Focht succeeds Brig.-Gen. William Mitchell, storm center in the recent aircraft controversy who will revert to the rank of colonel when his term of office expires next month.

**PUBLIC HEARING ON  
GASOLINE TAX IS SET**  
WASHINGTON, March 11.—In line with legislation passed by Congress, President Coolidge to be held on the gasoline tax, the Public Hearing on the Gasoline Tax will be held on the 19th inst., it was announced in the Senate today by Senator Brand, Democrat.

**COURT DENIES EDISON PLEA**  
Refuses New Trial on Injunction Prohibiting Company From Impounding San Joaquin Waters  
FRESNO, March 11.—Superior Judge J. Earl Woolley today denied the motion of the Southern California Edison Company for a new trial of the suit in which the Herminghaus heirs recently were granted an injunction restraining the power company from impounding certain waters of the San Joaquin River in connection with its development project in the Sierra Nevada Mountains.

At the same time the court made an order denying an Edison Company motion for vacation of the judgment given by Judge Woolley in deciding the case, which took four weeks to try. This was the largest water case ever heard in Fresno county and one of the largest ever tried in the State.

The decision of today bars the Edison Company, until the judgment is set aside, from impounding any greater amount of water from the San Joaquin River than is now stored for hydro-electric power purposes. The court's injunction, however, permits storage in Huntington and Shaver lakes with limitations. The limitations

are that the amount stored cannot exceed a certain specified number of acre-feet, the number being not in excess of the amount now stored.

Immediately after denial of the motion for a retrial today, Edison Company attorneys gave notice that the corporation will appeal to the Supreme Court. The case is now ended, so far as local courts are concerned, and the only local action remaining is preparation of the transcript on appeal of the case.

If the Supreme Court should uphold Woolley's decision, the Edison Company will be forced to proceed in eminent domain against the Herminghaus heirs and against the Shubert Theater last Monday.

**Illness Causes  
Noted Actress  
to Cancel Tour**  
KANSAS CITY (Mo.) March 11.—An illness which began five years ago has returned to Ethel Barrymore, noted actress, causing the cancellation of her Kansas City appearance and her world-wide tour. She is confined to her room at the Bellevue Hotel under the care of a physician.

Mrs. Barrymore expects to return to her home at Mamaroneck, N. Y., as soon as her physical condition warrants. Her illness is due to a disease known as arthritis and inflammation of the joints. Mrs. Barrymore is unable to stand. The engagement here was in the play, "The Second Mrs. Tanqueray," and was to have opened at the Shubert Theater last Monday.

**SENATE FILIBUSTER OPENS**  
Isle of Pines Treaty Delay Is Object; Copeland Threatens to Speak for Several Days  
WASHINGTON, March 11.—A filibuster against ratification of the Isle of Pines Treaty developed late today in the Senate with Senator Copeland, Democrat, New York, announcing that he was prepared to speak at least for several days.

Accepting this challenge, Republican leaders indicated they were ready to force night sessions to bring to a vote the convention with Cuba, which has been pending for more than twenty years and by which the United States would formally recognize Cuban sovereignty over the Isle of Pines.

With other opponents of this convention, Senator Copeland declared that action be postponed until the new Congress assembles. They take the position that new members of the Senate should have more time to study the question. Senator Copeland served his notice after more than five hours of debate. Previously he had asked for unanimous consent that

## REORGANIZE DOHENY OIL

Deal Involves  
\$200,000,000

California and Mexico Units  
Will be Separated by  
Pan American Head

Says Story of Standard Oil  
Purchase "Inaccurate,"  
Earnings Increase

NEW YORK, March 11.—Denying that he is negotiating with officials of the Standard Oil Company of Indiana for the sale of the Mexican Petroleum Company and other oil properties in Mexico, E. L. Doherty, in an exclusive interview announced that there is pending a reorganization of his various oil companies which may result in the separation of his Mexican companies, so that each can be operated by its own organization.

"The published statement that the sale of the Mexican properties of the Pan American Petroleum and Transport Company is contemplated is inaccurate," said Mr. Doherty. "It is true that negotiations are under way in connection with a plan which is in the nature of a reorganization and which if carried out will result in the Mexican properties of the Pan American Petroleum and Transport Company and the California properties of that company being separated so that each will be operated by a separate corporate organization."

"If this plan is carried out it is probable that new interests will come into the Pan American organization, but the California properties will continue to be operated by a corporation organized by Pan American interests. There may be changes in the personnel of the two companies but Mr. Doherty will always remain interested and active in Pan American affairs, and he will give special attention to the California end of the business which has become increasingly important in recent years."

"Instead of the amount involved being \$125,000,000 as stated in this morning's papers the book value of the stock is \$125,000,000 and the market value \$220,000,000, while the gross production is about 60,000,000 barrels."

"The gross sales of the Pan American Petroleum Transport Company for January were \$8,551,289, and for February they were \$9,723,968, the largest monthly sales in the history of the company."

**DEAL INVOLVES MORE  
THAN \$200,000,000.**  
NEW YORK, March 11.—More than \$200,000,000 worth of oil in the United States and Mexico controlled by the Pan-American and other companies headed by Edward L. Doherty, would be segregated in two separate organizations, it was announced today.

The Pan-American, Western and Pan-American Eastern Petroleum companies, it is now under way are completed. Mr. Doherty announced today that a plan of reorganization had been outlined which would bring new interests into the Pan-American organization and indicated that hereafter he would devote his attention mainly to the California properties, through the Pan-American Western Company.

The Standard Oil Company of Indiana, it is understood, will command a dominant interest in the Pan-American Eastern Petroleum Company, which will be organized under the direction of a banking group, headed by Blair & Co., to take over the Doherty oil holdings in Mexico. Negotiations are under way to include the British Mexican Petroleum Company in the new organization.

Tentative plans for the reorganization follow roughly proposals which were at first outlined in 1923 for the formation of the Pan-American Western Company to operate the California properties. The government's action to cancel naval oil leases to Doherty subsequently resulted in the abandonment of these plans and resulted in the withdrawal of securities which had been issued to finance the concern.

Unless unforeseen circumstances arise, Mr. Doherty asserted that the present negotiations will be concluded within a month.

**WORLD FLYERS NAMED  
AIR SERVICE OFFICERS**  
WASHINGTON, March 11.—In line with legislation passed by Congress, President Coolidge to be held on the gasoline tax, the Public Hearing on the Gasoline Tax will be held on the 19th inst., it was announced in the Senate today by Senator Brand, Democrat.

**COURT DENIES EDISON PLEA**  
Refuses New Trial on Injunction Prohibiting Company From Impounding San Joaquin Waters  
FRESNO, March 11.—Superior Judge J. Earl Woolley today denied the motion of the Southern California Edison Company for a new trial of the suit in which the Herminghaus heirs recently were granted an injunction restraining the power company from impounding certain waters of the San Joaquin River in connection with its development project in the Sierra Nevada Mountains.

At the same time the court made an order denying an Edison Company motion for vacation of the judgment given by Judge Woolley in deciding the case, which took four weeks to try. This was the largest water case ever heard in Fresno county and one of the largest ever tried in the State.

The decision of today bars the Edison Company, until the judgment is set aside, from impounding any greater amount of water from the San Joaquin River than is now stored for hydro-electric power purposes. The court's injunction, however, permits storage in Huntington and Shaver lakes with limitations. The limitations

are that the amount stored cannot exceed a certain specified number of acre-feet, the number being not in excess of the amount now stored.

Immediately after denial of the motion for a retrial today, Edison Company attorneys gave notice that the corporation will appeal to the Supreme Court. The case is now ended, so far as local courts are concerned, and the only local action remaining is preparation of the transcript on appeal of the case.

If the Supreme Court should uphold Woolley's decision, the Edison Company will be forced to proceed in eminent domain against the Herminghaus heirs and against the Shubert Theater last Monday.

## LEGISLATURE OF ARIZONA RATIFIES COLORADO PACT

Gov. Hunt Promptly Declares Act  
Without Force or Meaning;  
Courts May Decide Issue

PHOENIX, March 11.—The Colorado River compact, with the Senate amendment to the House Wisener-MacMillan resolution, went through both houses today and word was promptly sent up by Gov. Hunt that he considered their action valueless. In addition an effort may be started at once to refer the matter to a vote of the Arizona electors at the election two years hence.

The Winsor substitute, approved at a night session of the Senate yesterday in committee of the whole, this morning was made of record in open session by the same vote of 15 to 4. Shot over to the House, it was taken up at once in committee of the whole, in which several hours of violent protest were consumed by the opponents, many of them active in the high-line canal agitation.

The regular order had been suspended several days before and the bill finally was pushed through in House session and the measure signed by Speaker MacMillan after declaration of a vote of 21 yeas to 19 nays. Then the House adjourned till tomorrow morning when the final day of the legislative session will be started.

**SESSION IS WARM**  
The high-line advocates and anti-compactors held a mass meeting in the lower capitol lobby at 2:30 p.m. and passed resolutions that the compact struck at the very existence of the State, this after oratory that resounded even to the legislative chambers on the third floor. The resolutions were conveyed to the Governor's hands from which a message of warning soon was delivered for both houses. It was not read in the late afternoon but was made public.

The Governor flatly denies the right of the Legislature to pass the resolution as something that does not need his signature. He bases his argument on the State Constitution and declares that the Legislature, under the guise of a resolution, may not remove the check and balance of an executive veto.

**CALLS IT CAPRICE**  
"A resolution," he avers, "is the expression only of the will or pleasure, caprice or whim of the body framing such resolution, but it is not legislation and is not, as such, binding upon the executive body, the choice or will of the people of the State, represented through its Legislature."

"The decision of the Legislature creating a legislative commission (that to treat with California and Nevada) is void. "It is an attempt on the part of the Legislature to make a law and this, as stated, cannot be accomplished under the guise of a resolution. You may not ignore the checks and balances provided by our republican form of government and do so with impunity. The attempt so to do is futile. To summarize this resolution by your body it has no force or effect, prescribing a rule of conduct or as declaratory of the rights of things. Only an act of the Legislature in the form and manner prescribed by statute is sufficient to effect this purpose."

Just what the next move shall be does not appear to have been determined upon by either side, though it is probable attempts will be made to take it into the State courts, to determine the force of the Governor's objections, while the highest constitutional office in China—the first time in the fall of 1911, when he was proclaimed the first provisional President of the Chinese Republic, and again in May, 1921, when he was elected President of all China.

Preceding his first election, the Chinese people, rising in their wrath against centuries of bad government under the monarchial Manchus and previous dynasties, overthrew the existing government and set up a republic. All of South China and most of the Yangtze provinces were thus brought under a single banner.

The strongest man in North China at that time was Sun Shih-kai, Governor of Chi-li Province. Determined that the country should be united under one leader, Dr. Sun, after establishing what might be termed an experimental government in the south, resigned in favor of Sun Shih-kai. This marked the beginning of the end of the Chinese republic as far as Sun's influence was concerned, for while Sun Shih-kai was strong enough to guide the ship of state, he likewise had personal ambitions centered in a new dynasty.

Having tasted constitutional government, Senator Copeland declared that action be postponed until the new Congress assembles. They take the position that new members of the Senate should have more time to study the question. Senator Copeland served his notice after more than five hours of debate. Previously he had asked for unanimous consent that

With other opponents of this convention, Senator Copeland declared that action be postponed until the new Congress assembles. They take the position that new members of the Senate should have more time to study the question. Senator Copeland served his notice after more than five hours of debate. Previously he had asked for unanimous consent that

Taking the floor after Senators Willis and Fess of Ohio, Wadsworth of New York and Blaine of Connecticut had voiced their views, Senator Copeland spoke from behind a barricade of more than a score of weighty reference volumes and bulky documents on his desk. He intimated that if necessary, this matter would amply fill him with subjects for argument for a week or more.

Despite this, Senator Pepper, Republican of Pennsylvania, declared the pact will be kept constantly before the Senate until a vote is had. Senator Copeland had the floor when the Senate recessed and planned to resume his argument tomorrow.

EVERYBODY'S  
going in for  
comedy

Well—Good!

EVERYBODY'S found them out at last! The towns in the picture! And if you think it was easy, why, we'll have to say, with regard, that it was a hard job. Some of the other States may have sent their doctors, their scores and their hundreds to California to act in the movies. But here, in typically conservative fashion, seems to have carried

## OUR HISTORY IN PICTURES 47

Indian Means of Travel

by J. CARROLL MANSFIELD

BEFORE THE COLONISTS CAME TO AMERICA THERE WERE NO ROADS AND THE INDIAN TRAVELED ON FOOT OVER ROUGH TRAILS THROUGH THE WILDERNESS. WHERE THERE WAS NO TRAIL HE WAS GUIDED BY THE SUN BY DAY AND THE STARS BY NIGHT.

ANOTHER MODE OF TRAVEL WAS ON THE RIVERS IN LIGHT CANOES. THESE WERE BUILT OF A LIGHT FRAME OF WOOD OVER WHICH WAS STRETCHED THE BARK OF THE BIRCH TREE.

THEY SOMETIMES MADE A CANOE OR DUG OUT FROM A SINGLE TREE. THIS WAS FOLLOWED OUT BY FIRE.

WHENEVER A VISITOR WAS RECEIVED IN A FRIENDLY FASHION BY THE INDIANS HE WAS GIVEN THE CALUMET OR PEACE PIPE. THIS WAS USED TO BIND TREATIES WITH THE SETTLERS.

## NEW LIGHT SHED ON TEAPOT DEAL

Roosevelt Says Fall Violated Navy's Policy in Leases

Full Development of Fields Not Planned, He Asserts

Attempts to Keep Sinclair Contract Secret Told

(EXCLUSIVE DISPATCH)

CHETENNE (Wyo.) March 11.—Depositional testimony of Theodore Roosevelt, former assistant Secretary of the Navy, and the introduction by the government of a mass of letters and telegrams intended to show that Albert B. Fall, former Secretary of the Interior, attempted to keep secret the fact that he had leased the Teapot Dome naval oil reserve to Harry F. Sinclair's Mammoth Oil Company today made their way into the ever-swelling records of the Teapot Dome lease scandal.

Outstanding in Roosevelt's testimony was his statement that he insisted on a modification of the executive order drafted for signature by President Harding transferring the Teapot Dome reserve from the Navy to the Interior Department so that the Navy would have the "final say" in administrative affairs connected with the reserve.

Roosevelt said that the tentative draft of the order which came from the Interior Department was not satisfactory to him—that he at first took the position that the reserve should not be relinquished to the Interior Department. As it was signed by the President, he said in the deposition, the Navy would have been "overruled" over matters governing administration of leases to private concerns.

CHANGES MADE.—Receiving the original draft of the order, Roosevelt asserted, he conferred with Secretary of the Navy and others in the Navy Department, some of whom suggested changes; that various revisions were then made and submitted to Edwin Denby, the Secretary of the Navy.

What you get Fall to agree to the modification I will agree," Roosevelt quoted Denby as saying. After both secretaries agreed, Roosevelt's deposition said, the document was taken to President Harding, who signed it May 31, 1921.

Roosevelt's deposition said he neither knew of the leasing of the Elk Hills naval reserve in California nor the Teapot Dome lease until they were publicly announced, and that he had always been under the impression that it was not the intention of the Navy Department to permit leasing of the entire fields. He had understood, he said, that only offset wells on the lands of private owners adjoining commercial fields were to be drilled, and these merely to prevent drainage of the naval oil stores.

PLANS FOR STORAGE.—The Roosevelt deposition told of the Navy's plans for the building of storage to accommodate 45,000,000 barrels of oil of the Navy at a cost of \$27,500,000 and its program for developing the oil reserves only sufficiently to fill the proposed storage.

Asked on cross-examination what proportion of navy tankage the department planned on filling with oil from Teapot Dome, Roosevelt replied that he could not tell.

"What part did you take in the leasing order which the President signed," he was asked by J. W. Lacey, the defense counsel.

"I took a very active part. It is very difficult to recall definitely the order which I signed, but I do recall that I signed it," he said.

"What objection did President Harding make to the final draft?" "None whatever," he said.

"And he signed it in that form?" "Exactly."

FEARED CONGRESS.—That Fall took cognizance of "Congressional agitation" about the time the lease was executed was shown in government exhibits of a telegram on April 18, 1921, from Fall, who then was at his ranch at Three Rivers, N. M., to E. C. Finney, Assistant Secretary of the Interior, directing the latter to notify Sinclair to furnish security bonds to back his side of the contract.

"Notify Sinclair immediately to furnish security bonds in view of Congressional agitation," said the telegram.

A reply from Finney to Fall, assuring the latter that his order would be given immediate attention, also was introduced.

Depositions taken by representatives of the government at Toronto, Can., from H. S. Oiler, president of the defunct Continental Trading Company; H. M. Blackmer and James E. O'Neill, American oil men, now abroad, relating to an alleged transfer of Liberty

## CHINESE WARSHIP INTERVENES TO HALT NAVAL ENGAGEMENT OF RUSSIAN FLEET FACTIONS

(BY CABLE-EXCLUSIVE DISPATCH)

SHANGHAI, March 11.—A Chinese gunboat today intervened, preventing a serious naval battle between two sections of the Russian fleet now anchored in the mouth of the Yangtze river at Woosung. One section of the fleet recently declared its allegiance to Ataman Semenov and attempted to pull away from the rest of the ships, claiming authority granted by the local Chinese officials.

When a gunboat cut loose, fire was opened with rifles and machine guns, resulting in three officers being seriously wounded. They are now in Shanghai hospitals.

The Chinese naval intervention prevented further damage, although the firing continued for some time, creating alarm in Shanghai. The vessels have been anchored in the Yangtze for several months, creating a serious problem for the Chinese and foreign authorities.

Bonds from the Canadian corporation to Fall, amounting to \$100,000, will be read to "show" government counsel announced tonight. These depositions consist mostly of objections since the company refused to answer most of them.

In this connection J. E. Benton, assistant secretary of the National Bank of El Paso, Tex., will be put on the stand, according to the lawyers for the company. The lawyers for counsel late today announced they would consider renewing efforts to take depositions of certain officers of the company in Toronto, Can., as the result of a decision of the Appellate Court of Ontario today.

CANADIAN APPEAL COURT ORDERS OILER TO TESTIFY

TORONTO, March 11.—The United States government was victorious today in its fight to compel H. S. Oiler and six others of the defunct Continental Trading Company, Ltd., to tell some of the things they may know in connection with Teapot Dome oil leases.

Oiler and his associates lost their appeal from an order of Justice Riddell, handed down last December 12, which the appellate division decided that they must answer certain questions put to them by the United States District Attorney.

This end of the famous case came to light last September when the American government brought Oiler into court alleging contempt in that he had refused to answer certain questions put to him by United States Consul Shantz, acting as a commissioner. Oiler's appeal was based on the fact that he had been ordered that he must answer two days later his attorneys filed an appeal and it was this action that the appellate division's ruling today settled.

MORE BONDS TRACED BY FEDERAL AGENTS

CHETENNE (Wyo.) March 11.—Another batch of the Liberty bonds which figured in the profits of the Continental Trading Company, Ltd., of Canada, have been traced by Federal agents.

These bonds which total in excess of \$125,000, Federal officials were told, were followed to the personal account of James E. O'Neill, former president of the Prairie Oil and Gas Company in the National City Bank of Chicago. The bonds were acquired by the New York branch of the Dominion Bank of Canada, which was the president of the now defunct Continental Trading Company.

The original plan, the government contends, called for the sale of \$2,000,000 barrels of Mexican oil which was purchased by the Continental being guaranteed by O'Neill and Mr. Sinclair. Immediately the sale to the Continental was closed, the oil was resold to the Sinclair and Prairie interests for \$1.75 per barrel.

The resale stopped after 8,000,000 barrels had been resold, the Sinclair then being in excess of \$2,000,000. This \$2,000,000 was the government alleges, converted into 1-1/2 per cent Liberty bonds, those associated with him in business.

The original plan, the government contends, called for the sale of \$2,000,000 barrels of Mexican oil which was purchased by the Continental being guaranteed by O'Neill and Mr. Sinclair. Immediately the sale to the Continental was closed, the oil was resold to the Sinclair and Prairie interests for \$1.75 per barrel.

AGENT FOR ESTATE SUE FOR \$17,500

REDWOOD CITY, March 11.—John A. Hoey, City Clerk of Hillsborough, near here, was made defendant in a suit filed in the Superior Court here today in which it was charged that he disposed of a parcel of property for the Bowie Estate Company for \$17,500 after recommending to the estate that it should be sold for \$20,000. The estate is the plaintiff and asks that the \$17,500 be returned to it. Hoey has been acting as agent for the estate in certain realty transactions.

CHAMPION LION HUNTER (EXCLUSIVE DISPATCH) CLIFTON (Ariz.) March 11.—Cleve Miller declared the champion lion killer of the Southwest. During this season he has slain fifty mountain lions, fifteen of them falling in a single month.

## DR. SUN YAT-SEN TAKEN BY DEATH

(Continued from First Page)

freedom, the masses were in no temper to countenance monarchistic aspirations, wherever they were. He had been elected a successor. For the next seven years, including the period covered by the World War, China was to all appearances a republic with a President, a Cabinet and Parliament. The Peking government was a democracy, ruled by a group of warlords, each with his own province, and in control of his own province. The Peking government became a mockery.

WILL TURN GUNS LOOSE

Off Los Angeles Harbor, on the 25th inst., seventy-eight ships of the fleet will execute force practice, in which every available battleship, cruiser, destroyer, submarine, aircraft and auxiliary for six minutes simultaneously will turn loose sixteen-inch batteries, five-inch guns, antiaircraft batteries, torpedoes and smoke screens against a "dummy" 20,000 yards distant. No sea yet had such a test of its effectiveness.

WILL TURN GUNS LOOSE

Off Los Angeles Harbor, on the 25th inst., seventy-eight ships of the fleet will execute force practice, in which every available battleship, cruiser, destroyer, submarine, aircraft and auxiliary for six minutes simultaneously will turn loose sixteen-inch batteries, five-inch guns, antiaircraft batteries, torpedoes and smoke screens against a "dummy" 20,000 yards distant. No sea yet had such a test of its effectiveness.

REDISTRICTING PLAN ADVANCES

(Continued from First Page)

chastity and visionary war district bill foisted upon members of the Senate and Assembly, is in Sacramento with an amendment bill to take the place of the radical measure first proposed by Mr. Harbo.

The Senators and Assemblymen who accepted the first bill under the misapprehension that it was a constructive proposal designed to benefit Southern California are prepared to scrutinize the duplicate measure with considerable care.

Union labor sponsors of the Harris-Murphy bill to deprive California courts of the right to enforce decrees relating to violation of injunction orders today indicated that they would support the bill if amended to include labor disputes.

Although legal authorities assert that proposed amendments to the bill will result in an unconstitutional agreement between the three branches of government, the bill is not yet in ready signature to the Governor.

## POSLAM OFTEN ENDS PIMPLES IN 24 HOURS

Whenever any of these annoying eruptions appear, dab them at night with that gentle, healing Poslam ointment. It is so concentrated that by the next morning the pimples have sometimes gone. If they aren't all gone then touch them again with a bit of Poslam. This does the trick. At all drugists 50c. —Advertisement.

## FYNN MASTERS CANADIAN PEAK

Ramparts Range Challenges Daring Climber

Reaches Summit of Geikie, Held Impossible

French Mountain Conquered in Blinding Storm

(This is the third article of a series of five on mountain climbing as told by Val A. Fynn, a St. Louisan, to the St. Louis News Service. Today he describes feats in the Mont Blanc group of mountains, France, and in the Ramparts Range of Canada.)

(EXCLUSIVE DISPATCH) ST. LOUIS, March 11.—Another outstanding accomplishment of Fynn was the first ascent of the Alouette Vert in the Mont Blanc group of mountains in France.

"In company with a friend, I started out at 11 p.m.," said Fynn, "finding the weather and snow conditions unusually good, we crossed the glacier and reached the foot of the Alouette Vert at 4 a.m. Starting up the face of the slope, we found it to be one of the steepest in existence. The ice was hard but the work was straightforward and soon we had worked our way off the frozen cliff onto the rocks. Here we found extreme difficulty in obtaining a hold or a footing. Most of the scaling had to be done with the hands, reaching up and feeling for crevices in the granite rocks where we could cling and draw ourselves up. It

was almost like trying to go up the side of a house.

"At about 4 p.m. we reached the summit ridge but were confronted with a new difficulty, having to work our way horizontally across the face of the cliff that overlooked the Glacier d'Argenterie, about 3800 feet below. By the time we reached the skyline the weather began to break. Ominous storm clouds gathered over the peaks and the boom of thunder echoed on every side as the lightning leaped from crag to crag. Rain began to fall, rapidly turning to sleet and snow.

## FEAT IS UNDUPLICATED

"Pushing on to the summit, we took only enough time to place our record there and started down by another and easier route. By 1:45 a.m. we had nearly reached the glacier but had to stand in the shelter of the rocks waiting for the morning light to complete our journey. Although several persons since have tried to ascend over the route we took, none so far has been able to succeed."

"I read an article one day," said Fynn, "about how a Swiss party had failed in its attempt to go up Mt. Geikie. That settled my doubts at once as to how and where I would spend my vacation. I got busy with my plans immediately and got in touch with a deal of knowledge about the mountain. We combined our forces with still a third man and set about doing the job.

"Being a little out of training, we decided to climb Barbeau peak, nearly before attempting Geikie. From Barbeau we studied Mt. Geikie, and went to the southeast face, which we had selected for our attempt.

"At first all went well. We went up a long snow gully, very steep, requiring great care but not much exertion except at the top, where we encountered a lot of loose stones. Finally reaching the summit ridge, where others had been balked by a huge buttress that jutted out, we examined the situation minutely.

"The huge rock confronting us had appeared black from a distance. Examination revealed it to be wet and, of course, too slippery for climbing. But from the valley I had observed with my telescope that on one side the wall facing to the south—some small ledges seemed to connect up. If that proved the case, I knew we could make it. After reaching the skyline it was necessary to cross over to the north side of the peak.

"This was not difficult, as we found a unique way to solve it. We discovered a tunnel that emerged on the far side of the mountain. Following this through, we got back to the skyline and reached the black rocks. Turning south, we found the ledges, and, as luck would have it, they connected up. Some were very narrow, yet we got over and eventually picked our way to the summit, arriving there about 4 p.m. We built a 'stone man,' deposited our names in a bottle, and descended by the same route we came up. By 4 a.m. we were safely back in camp, our vacation aim accomplished."

(Tomorrow—Fighting with Death.)

was almost like trying to go up the side of a house.

"At about 4 p.m. we reached the summit ridge but were confronted with a new difficulty, having to work our way horizontally across the face of the cliff that overlooked the Glacier d'Argenterie, about 3800 feet below. By the time we reached the skyline the weather began to break. Ominous storm clouds gathered over the peaks and the boom of thunder echoed on every side as the lightning leaped from crag to crag. Rain began to fall, rapidly turning to sleet and snow.

## CHARGES DENIED BY MRS. STOKES

Mother Aids Her in Giving Lie to Aged Hotel Man

Prediction Made That Case Will Go to Jury Friday

Feature Witness is Not Given Cross-Examination

(EXCLUSIVE DISPATCH) CHICAGO, March 11.—Helen Elwood Stokes gave the lie to her husband, 73 years of age, today on every count of the charges he has laid against her, in his trial on charges of conspiracy to blackmail her name.

She and her mother, Mrs. Arthur Scott Miller, were on the stand in Judge Gemmill's court as the last witnesses in the case. When they had testified, denying all that W. E. D. Stokes has said of his young wife's conduct, both sides rested. Arguments began this afternoon, with the prediction that the case will go to the jury Friday.

Mrs. Stokes, the Helen whose pretty face launched the thousand affidavits of the long Stokes war, was an appealing figure on the stand. Her demeanor was gentle, her voice sweet and appealing. She denied, just the sight of her was a rebuff against Stokes's charge that she is a bold, designing, unfaithful woman.

She told a pathetic story of the family rumpus over her handsome young cousin, Hal Billie, who was the principal co-defendant in the hotel man's suit for divorce. She said that she had traveled from Chicago to Denver and back together in 1922, three years after the break-up of the Stokes family. She shuddered as she denied knowledge of the old love district in Chicago.

## DEFENDS SELF

Though Stokes and Robert H. Lee, a negro agent, are on trial, Mrs. Stokes was practically, if not legally, a witness in her own defense. In extension of his efforts to connect her with the old love district, Stokes had charged his young wife with infidelity. She was put on the stand in rebuttal against those charges.

She looked only two or three times at the gray-haired defendant while she was testifying—cold, unwavering glances. W. W. Smith, assistant State's Attorney, asked her if she ever lived with Stokes after their separation.

"Thanks to Stokes's assertion that his young wife's hair is hennaed red, she was able to use Mrs. Stokes's beautiful red locks against the defendant.

"'Take off your hat, please,' asked Smith, after Mrs. Stokes had denied coloring her hair. Mrs. Stokes removed her black hat and the jurors had their first look at the golden-red hair so often mentioned in the trial.

The defense refused from cross-examination. After half an hour of questioning Smith turned to Charles F. Rathbun, Stokes's attorney, and said:

"'You may cross-examine.'"

"No cross-examination," said Rathbun without looking at Mrs. Stokes.

## CONDUCTORS' STORIES

Three State's witnesses cast doubts on the Pullman conductors' stories before Mrs. Stokes was called. They testified that Hal Billie was in Chicago during the time of the summer of 1922. It was in that summer that Mrs. Stokes and Billie traveled from Chicago to Denver and back together, according to the two Pullman conductors called by the defense.

Dr. Hal C. Billie, Sr., testified that his son was at home, in Maywood, during all the summer of 1922, covering his last week-end trips to Michigan City. W. C. Gibson and Norman Fortney, companions of young Billie, testified that they saw him regularly during the summer of 1922. Fortney saw him practically every day and Gibson saw him daily. Gibson even accompanied Billie on the week-end trips, he said.

After the Billie witnesses had testified half a day, Mrs. Stokes, derisive characters Stokes had interviewed during his hunt for evidence took the stand to deny in detail statements attributed to them by Stokes.

## Angeleno Part Heir to Large Chicago Estate

(EXCLUSIVE DISPATCH) CHICAGO, March 11.—Adam Arthur Walters, who died March 6, aged 82, left an estate of \$1,000,000 in trust for members of his family, his will admitted to probate today disclosed.

He was a retired grocer.

The money, with the exception of \$10,000 left outright to his son, Adam A. Walters, Jr., is to be held by the Illinois Merchants' Trust Company for the life of Mrs. Walters, and then to be paid to the heirs.

There is another son, William A. Walters, of Los Angeles, and two daughters, Mrs. Elizabeth Aldrich and Mrs. Sarah Slade, both of Chicago.

## WOMAN IN RESCUE OF DOGS IS GIVEN MEDAL

(EXCLUSIVE DISPATCH) NEW YORK, March 11.—Mrs. Marquita Whitehouse Donnet, of Irvington-on-Hudson, who nearly lost her life on February 23 when she rescued six of seven dogs who had broken through thin ice on a lake near her home, received the distinguished service medal of the A.S.P.C.A. at a surprise party last night.

Mrs. Donnet, who rescued her dogs through the ice when she went to the rescue, but she helped the dogs to safety, and their barking called the neighbors who rescued her.

ARIZONA MAN CRASH VICTIM (EXCLUSIVE DISPATCH) PHOENIX, March 11.—J. Reed Douglas, Arizona representative of a tractor company of California, was killed at Yuma when his automobile left the highway at a bridge and overturned. He leaves his widow and two children who live in Phoenix, and two sisters in California.

## TRAFFIC IN NARCOTICS REVEALED

Canadian Authorities Think Small Craft Ply Illicit Trade

(EXCLUSIVE DISPATCH) VANCOUVER (B. C.) March 11.—From Point Grey to Point Roberts, a distance of about fourteen miles, police officials and secret service men are scouring the shores for asserted drug traffickers.

The arrest of Richard Pelletier, a farmer of Point Roberts, in connection with the arrival in Seattle of sixty-five tons of opium, has forced the detectives to the theory that at various points along this face of land dope is being picked up from oriental boats and taken ashore for trans-shipment to Seattle and Vancouver.

Since commencing to investigate the detectives have found evidence of peculiar movements of small boats about the time the Empress liners come in, and also of the landing at Stevenson of peculiar-looking packages.

The general impression is that a wholesale supply of drugs comes in by this route.

## Father Fined for Switching His Daughter

DENVER, March 11.—Frank Brown, 1007 Zuni street, was fined \$25 and costs in Police court for switching his 10-year-old daughter, Esther, Magistrate Orshood adjudged him guilty of cruelty to a child.

Mrs. O. Brown, 1001 Zuni street, testified Brown whipped his daughter thirteen and one-half miles switch and said he did it almost every day. Brown admitted having punished the child, but denied making a practice of it and declared he was not severe.

## POSTMAN MAKES 739 CALLS IN ONE DAY

There is one man in Minneapolis who frequently makes as many as 739 calls in a day, and everywhere he is hailed as a hero.

He is Carl Norlin, who carries mail from the Linden Hills post-office station. His route covers more than ten miles and his pack often weighs more than 100 pounds when he starts out. John J. no, he said.

Hills station, makes an average of 532 stops each day, but his route covers thirteen and one-half miles. Snow or shine, 417 postmen start out each morning to call personally on more than 100,000 homes, carrying mail to 421,000 Minneapolis residents. —[Minneapolis Journal.]

## RHEUMATISM PROMPTLY BANISHED

G. C. Tooms of 1231 Naomi Street, Los Angeles, says:

"After being laid up for three years with rheumatism and poor circulation, I took your Neurex System remedy for ten days and am improved so I will be able to go to work soon. I wish I could better express my thanks to you for the good you have done me."

NEUREX SYSTEM BUILDER is the greatest of all system builders. NEUREX SYSTEM BUILDER will in a few days accomplish wonders in restoring nerve tone and rebuilding the general system; overcoming kidney and bladder weaknesses and sleepless nights from nervousness and physical fatigue. Try NEUREX tablets today and shake off that old age feeling and get back your physical fitness. For men and women. On sale at Owl and Sun Drug Stores, Standard Homeopathic Drug Co., 316 South Broadway, and all other leading drug stores. —[Advertisement.]

## Fifty Years Ago

Bellflower, Calif.—"I can remember 50 years ago, when my mother used and praised Dr. Pierce's medicines because they had been so helpful to her. When I was developing into womanhood, I was delicate and needed some aid to nature and it was the 'Favorite Prescription' that did me so much good. Again after my marriage when the children were coming into our home, the 'Favorite Prescription' gave me the strength and nerve to keep up my work. Also, when I reached middle life I found the 'Prescription' a wonderful help.

"Once when stricken with typhoid fever, I was left in a weakened condition, and Dr. Pierce's Golden Medical Discovery was what helped me to recover my health."

Your druggist will sell you Doctor Pierce's medicines in tablets or liquid, or send the 'Favorite Prescription' to Doctor Pierce's Invalids' Hotel, in Buffalo, N. Y., and write for free advice. —[Advertisement.]

## OREGON TAX ON TOBACCO ROUSES IRE

Cigarettes Bear Brunt of Imposit; Cigars and Plug Escape Levy

(EXCLUSIVE DISPATCH) PORTLAND, March 11.—Nothing that the late lamented Oregon Legislature did left such a trail of discussion and dissatisfaction as its tobacco tax. Smokers generally feel hurt and nobody defends the tax as all that it ought to be.

The chief objection to the tobacco tax is that, generally speaking, the cigarette smokers are going to pay it. The tax is a 10 per cent levy on cigarettes, smoking tobacco and snuff. Those who smoke cigars, and the rural element and others who must have their "eating tobacco," escape.

There were two reasons for this discrimination. The legislators figured that they did not need cigars and chewing tobacco to complete the necessary tax money. The cigarette tax is going to bring in some \$1,041,000; smoking tobacco will add \$140,000, while snuff will trail along with \$23,886 based on present consumption. More than this, however, was the obvious difficulty in collecting a retail tax on tobacco not sold in containers. A dealer might stamp a cigar box, for instance, but there would be nothing to prevent him from filling the same box indefinitely and evading the tax.

## FORTY-FIVE-MILE LIMIT SET

(BY A. F. NIGHT WRITER) RENO (Nev.) March 11.—Forty-five miles an hour would be lawful speed on State highways in Nevada if a bill passed at Carson in the Assembly this afternoon should be adopted by the Senate and approved by the Governor.

## NEW YORK CENTRAL LINES

**Why the CENTURY seems to run slowly**

Travelers on the 20th CENTURY LIMITED often remark on the seemingly leisurely pace at which the train moves along the water level route.

This illusion of restrained speed is due to the excellence of the New York Central's vigilantly maintained roadbed, as well as the great reserve power of the steam and electric locomotives that haul the CENTURY.

The CENTURY "saves a business day" for the Chicago-New York traveler—and does it comfortably.

## BEER FEATURES QUADRA TRIAL

Is Kept Rolled Into Court as Mute Evidence

All to be Part of Million-Dollar Wet Cargo

British Crew Being Tried as Treaty Violators

(BY A. F. NIGHT WRITER) SAN FRANCISCO, March 11.—The kegs of beer were rolled into the courtroom of United States District Judge John S. Partridge here today as evidence against the British crew of the ship "The Quadra," a suspected treaty violator. In the trial of the members of her crew and others charged with violating the Federal prohibitions laws and the American-Canadian treaty regulating liquor shipments.

The beer was taken from the "Quadra" after she had been brought into port by the Coast Guard cutter Shawnee, which took it as a prize off the Farallon Islands. The liquor formed part of the evidence submitted by H. S. Lighton, a customs officer, who stated the vessel after she was brought into the harbor and surrounded by cargo of liquor, which was estimated to have a value of over \$1,000,000 and \$1,000,000. Lighton also introduced what termed the unofficial log of the "Quadra," in which was the following entry: "No rest for a booze crew; making cargo all day." Lighton and Capt. Charles F. Lighton were the only witnesses today. Capt. Lighton was the only witness today.

**SALE OF PACIFIC SHIPS UP**

Government Board Will Confer Today With Private Interests Relative to Transfer

(EXCLUSIVE DISPATCH)

WASHINGTON, March 11.—Plans for the government to dispose of passenger ship lines now operated by the Shipping Board on the Pacific to private interests will be undertaken tomorrow at a conference with the sales section of the Shipping Board, of which Commissioner Lissner of Los Angeles is chairman. No formal proposition is now offered and after the preliminary conference definite proposals in writing are expected to be tendered the board. Robert Dollar, representative of the Fleischacker interests and other shipping men of the Northwest are here to present their views.

One of the groups has in mind the freight lines are taken over by private interests service for each of the Pacific ports will be guaranteed, and if satisfactory contracts can be secured the prospects are good for the Shipping Board to withdraw from all ship operations as owners from all Pacific Coast ports.

The conference tomorrow and on the days following will determine whether out of this preliminary meeting a definite plan can be made into contract form to eliminate the government from ship operation on the Pacific Coast. If such a program is effected, it is the belief here that such withdrawal from shipping would be followed as rapidly as possible on the Gulf and Atlantic coasts.

Howell was questioned closely by the defense as to his seamanship and the manner in which he reckoned that the Quadra was within the territorial waters of the United States when the seizure was made. He introduced a compass chart covering the period of the seizure, saying that his reckonings were made by the compass and by soundings. The defense contends that the Quadra was seized outside of the treaty limits and the seizure was therefore illegal.

**Georgia Doctor, Touring Greece, Shot by Bandit**

(BY CABLE AND ASSOCIATED PRESS)

ATHENS, March 11.—Dr. John Logan of Gainesville, Ga., was shot through the right lung yesterday noon by bandits who were holding up the automobile in which he and three other Americans, all students of the American School of Archaeology, were traveling in Southern Epirus, Greece.

The wounded man's condition is considered serious, but not necessarily fatal. Dr. Jesse Marden of Boston, the Near East Relief organization's medical director, left Athens tonight by steamer to attend Dr. Logan, who has been removed to Arta.

Dr. Logan's companions escaped injury. They were Charles Alexander Robinson of Peekskill, N. Y.; Helen Virginia Rye of Portland, Me., and Dorothy Cox, a Bryn Mawr student of New York.

**ARIZONA ROADS PRACTICES HIT**

Phoenix Highway Cession Protested in Prescott

Federal Aid Loss Threatened on White Spar Route

Day Labor System and Costs Are Under Fire

(EXCLUSIVE DISPATCH)

PHOENIX, March 11.—Charges that Gov. Hunt has been making a political machine of the State Highway Department have been made repeatedly in the past. Much of the road work during his administration has been done on "force account," by the department itself, with rejection of bids on the statement that work would be done by the State more satisfactorily or more cheaply. Declaration has been made that none save safe Hunt Democrats have been employed wherever possible, this much being aided by a campaign controversy with a former foreman of a Cochise county road section, discharged for disloyalty. It is told that construction work on the Lyman Dam was done by day labor mainly, with rejection of contracts, that farmers of the vicinity might be employed directly by the administration and thus be under obligation.

**PRESCOTT PROTEST**

These charges appear to have been brought to a head by residents of Prescott who are protesting against cessation of work on an important section of the Prescott-Phoenix highway, which was to have been opened this summer. Complaint against the State methods has been made by Thomas H. McDonald, chief of the Federal Bureau of Public Roads, who has written the Prescott Chamber of Commerce that he is considering definite recommendations to cancel the Federal appropriation toward construction of the nine-mile section of the White Spar highway, between Yarnell Hill and Congress Junction. This action is considered advisable "since the State takes the position that this project must be built by day labor, notwithstanding low competitive bids submitted by contractors. This bureau, though unofficially informed, believes, from best information available, that day-labor projects now going forward are seriously overrunning original estimates." The bureau chief adds: "The original bids have been rejected. If new bids are taken and work proceeds along business-like lines, I will withhold recommendations for cancellation. We are all anxious to co-operate fully with your county and with the State, but must insist on economy of combined funds."

**REPORTS LACKING**

District Engineer Wheeler in Phoenix also has heard from his superior, with information contained that the State has failed to submit requested reports on relative costs or to advise whether it has installed a cost accounting system. The opinion is expressed that the day-labor system "already has been a considerable loss to the State." It is explained that the Federal government is losing nothing by the methods adopted and that the bureau does not desire to harass the Arizona Highway Department, but it has become "a question whether the bureau can become a party to the continuation by the State Highway Department, in respect to Federal aid construction, of the policy which involves a higher cost for roads than is necessary."

**PLEA TO GOVERNOR**

The Phoenix Chamber of Commerce good-roads committee has asked the Governor to get into line with the government and Manager H. B. Watkins has wired Washington to hold up the cancellation order for a while. If the Governor fails to act, other pressure will be applied. It is shown by the report of the Federal engineer that the State rejected a bid by Schmidt & Hitchcock of \$162,213 for the work especially under review and that this bid was far below the basic estimate. Keen competition for the work was shown in the bids submitted. From administration sources comes explanation that "the tie-up has been due to reluctance on the part of the State authorities to let the work to private contractors without a thorough understanding that it is to be done in strict accordance with Arizona labor laws, which require the employment of American laborers who are bona-fide residents, on an eight-hour basis."

**RUSSIAN SHIP FIRST IN AMERICA SINCE WAR**

STEAMER PAYS HEAVY EXTRA TAX DUE TO LACK OF TRADE TREATY

(BY A. P. NIGHT WORK)

SAVANNAH (Ga.) March 11.—The Russian steamer Wladimir Vorovsky, a vessel of the merchant marine of the present Russian government, which docked here yesterday from Antwerp, Belgium, is the first Russian steamer to enter a port of the United States since 1917, the master said.

The customs authorities assessed an additional customs tax of \$1 a net ton on the ship. This means that instead of paying a tax of \$180 a tax of \$2672 must be paid as well as the \$180 as there is no existing commercial treaty between Russia and the United States. The crew of about fifty men, virtually all Russians, is detained aboard by the customs authorities.

**J. L. SEATTER DIES AS AUTO OVERTURNS**

(BY A. P. NIGHT WORK)

REDDING, March 11.—J. L. Seatter, San Francisco superintendent of the Nevada Contracting Company, was killed and H. W. Bowdish, an employee of the company, was seriously injured when an automobile in which they were riding overturned on the road along O'Brien's Creek, near here. No cause has been determined for the accident. Bowdish was brought to a hospital here.

# Never before so fine a stock of Foreman & Clark Spring Styles all-wool, hand-tailored, low-priced &

We've "boxed" a million cubic feet of daylight—with glass on four sides and above, for the Foreman and Clark tailors who build guaranteed quality into YOUR F. & C. spring suit.

In this long, low Foreman and Clark production giant (Factory No. 5)—up the Hudson at Watervliet, New York, they've cut and stitched, they've measured and made, they've shaped and draped a suit of clothes for you—a little finer than any previous product of the famous Foreman and Clark factories. And why shouldn't they do it?

With a hundred thousand feet of new floor space under their feet, with the finest, newest, most ideal tailoring equipment, with the clean fresh air of up-state New York in constant

circulation throughout every daylight shop—is it any wonder they have lifted previous production standards 10% higher and cut production costs 10% lower than ever before?

This great plant—spreading its wings over acres of ground—stands alone throughout the industry as a living monument to *Public Confidence*.

**Finest tailoring facilities  
in America re-double our volume,  
re-double your savings!**

The public created it—demanded it—erected it. Re-doubled volume in F. & C. upstairs stores demanded re-doubled production in F. & C. factories. This new, this largest, of all Foreman & Clark plants is the answer.

Never has any clothing institution in the World COMBINED so many heavy-hitting resources for cutting clothing costs and profits!

## WARREN'S REJECTION REGRETTED

Senate's Refusal to Confirm  
Recognition Negotiator is  
Disappointment to Mexico

BY JACK STARR-HUNT  
(EXCLUSIVE DISPATCH)

MEXICO CITY, March 11.—The  
rejection by the Senate of Charles  
E. Warren's appointment as At-  
torney-General of the United States  
has evoked great surprise and  
much regret in government circles  
here.

Mr. Warren is remembered  
throughout Mexico for his unceas-  
ing friendship to this country and  
his work in negotiating the pre-  
liminary arrangements which led  
finally to resumption of diplomatic  
relations between his country and  
Mexico. His unselfish efforts in be-  
half of this country in defying the  
oil interests of the United States  
who sought to void Article XXVII of  
the Mexican Constitution as a pre-  
liminary to recognition by the United  
States brought him the friendship  
of the entire nation. He swept  
aside the demands of the Ameri-  
can oil men at the time and ar-  
ranged a treaty satisfactory to Mex-  
ico.

Mr. Warren's service to Mexico  
during his term as American Am-  
bassador here is also gratefully re-  
membered. It was due primarily  
to his efforts that the friendship  
between the two republics was ce-  
mented during the De la Huerta  
revolution, when Gen. Obregon was  
President. His rejection by the  
Senate is looked upon here as a  
distinct loss not only to the United  
States but to Mexico as well.

MEYER RENOMINATED  
BY A. P. NEWS WRITERS

WASHINGTON, March 11.—Eugene Meyer was renominated today  
by President Coolidge as director  
of the War Finance Corporation.

### MASCART NOT SIGNED FOR GO

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (New York, March 11.)—Mascart, French featherweight, has not been signed for a title match with Louis Kaplan, a representative of Tex Rickard said today, when informed that Mascart was en route to the United States.

### TILDEN TO APPEAR AT LOCAL CLUB

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Francisco, March 11.)—National champion tennis player Bill Tilden will appear at the local club, extra bleachers being erected to take care of the expected crowd.

### KANSAS CITY BLUES' OWNER AT HANFORD

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (Hanford, March 11.)—George Muehlebach, owner of the Kansas City Blues, and Mrs. Muehlebach arrived here last night direct from Kansas City. They will remain here today and tomorrow and depart with the team for San Francisco tomorrow night.

### CORONADO POLOISTS WIN GAME

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Diego, March 11.)—The Coronado Country Club polo team this afternoon gave the Tenth United States Cavalry four their first beating since their arrival at Coronado, the score being 11 goals to 10.

### CALL OFF HONOLULU RACE

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (Honolulu, March 11.)—Admiral Soland, of the Southern California Yachting Association, has announced that the ocean event has been called off in order that all yachtsmen on the Pacific may lend their undivided support to the 2600-mile San Francisco-Tahiti race, which will start from the Bay City on June 10.

### SPRINTERS PRACTICE FOR TOUR

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Francisco, March 11.)—Paddock and Murchison in daily work-outs for long running journey.

### RAMIES IS LAID AWAY BY NUNES

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Francisco, March 11.)—Sacramento boxer wins in sixth; Hector saved from kayo by Bell.

### FAVORITES WIN IN CORONADO TOURNEY

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Diego, March 11.)—Favorites came through again today in the second round of play in the annual women's championship golf tournament at the Coronado Country Club without upset.

### DUCK YANNIGANS WIN

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Jose, March 11.)—The Portland Yannis defeated the regular this afternoon, 12 to 10, in the first practice game. Victor Commy, a recruit from Pittsburgh, Cal., got a single, double, triple and a homer in four trips up, scoring three runs.

### BLAKE RETURNS AS THIRD MAN

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Francisco, March 11.)—George Blake, boxing instructor at the L.A.A.C. and one of the best light referees in the country, will be granted permission by the State Boxing Commission to step into the ring again as third man. When he took over the management of Fidel La Barba and other fighters Blake had to give up his work as referee, but need for men of his caliber will result in his getting back in to the harness again soon.

### ON THEIR MARKS FOR A LONG JOURNEY

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Francisco, March 11.)—Charlie Paddock and Loren Murchison, whose combined speed would probably compare favorably with that of Halley's Comet, shown ready for a practice gallop at Paddock Field. The two sprint marvels leave Tuesday for San Francisco, from where they will start on an attempt to lower the record of the around-the-world flyers on a sprinting tour of the globe. Saturday they run on a special relay team in the Pomona-U.S.C. meet at the Coliseum.

### CORONADO POLOISTS WIN GAME

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Diego, March 11.)—The Coronado Country Club polo team this afternoon gave the Tenth United States Cavalry four their first beating since their arrival at Coronado, the score being 11 goals to 10.

### CALL OFF HONOLULU RACE

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (Honolulu, March 11.)—Admiral Soland, of the Southern California Yachting Association, has announced that the ocean event has been called off in order that all yachtsmen on the Pacific may lend their undivided support to the 2600-mile San Francisco-Tahiti race, which will start from the Bay City on June 10.

### SPRINTERS PRACTICE FOR TOUR

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Francisco, March 11.)—Paddock and Murchison in daily work-outs for long running journey.

### RAMIES IS LAID AWAY BY NUNES

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Francisco, March 11.)—Sacramento boxer wins in sixth; Hector saved from kayo by Bell.

### FAVORITES WIN IN CORONADO TOURNEY

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Diego, March 11.)—Favorites came through again today in the second round of play in the annual women's championship golf tournament at the Coronado Country Club without upset.

### DUCK YANNIGANS WIN

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Jose, March 11.)—The Portland Yannis defeated the regular this afternoon, 12 to 10, in the first practice game. Victor Commy, a recruit from Pittsburgh, Cal., got a single, double, triple and a homer in four trips up, scoring three runs.

### BLAKE RETURNS AS THIRD MAN

(EXCLUSIVE DISPATCH)  
 (By A. F. Night Wire)  
 (San Francisco, March 11.)—George Blake, boxing instructor at the L.A.A.C. and one of the best light referees in the country, will be granted permission by the State Boxing Commission to step into the ring again as third man. When he took over the management of Fidel La Barba and other fighters Blake had to give up his work as referee, but need for men of his caliber will result in his getting back in to the harness again soon.

## FILM FINANCE STOCK IS SOLD

Common Stock Issue Sale is Reported from New York

De Mille Associates Develop Plans Rapidly

Utah-Idaho Sugar Company to Offer Bonds

Lyman D. Smith & Co., members of the New York Stock Exchange, yesterday announced the sale of a new issue of 40,000 shares of the Motion Picture Capital Corporation no par value common stock at \$17 a share. The corporation finances various activities of the motion picture industry, according to Frank H. Wilson, president, who is in Los Angeles for a conference with Cecil B. De Mille, and other executives of the Producers Distributing Corporation. Mr. De Mille also is a director of the Motion Picture Capital Corporation.

Capitalization of the capital corporation consists of \$613,000 in shares of \$10 per cent cumulative preferred stock and 70,000 shares outstanding of no par value common. All accrued dividends at the rate of 8 per cent have been paid to date on all preferred stock, and it was announced yesterday that earnings for the month of January were at the annual rate of more than \$3.70 a share on the 10,000 shares of common stock outstanding immediately prior to this offering.

**LOANS ADVANCED**

The Motion Picture Capital Corporation, Mr. Wilson asserts, does not produce or distribute motion pictures, but operates in co-operation with the industry, making loans to producers and others on collateral, and in turn rehypothecates these loans at the banks. It exercises close supervision over the expenditure of funds loaned, and through the familiarity of its executives with the industry is in a position to make close appraisals of values.

The present management will continue with the enlarged organization. The directors are DeLoe A. Blodgett II, J. E. Brulatter, H. Lester Giddley, Cecil B. De Mille, Stephen J. Leonard, Charles Potter, H. A. Richards, Theodore Schulze and Frank R. Wilson.

**DE MILLE ACTIVE**

Association of Cecil B. De Mille, former director-general of Famous Players-Lasky Corporation, with the Motion Picture Capital Corporation, assures proper financing for his recent independent venture, the formation of the Cecil B. De Mille Pictures Corporation, certified copy of articles of incorporation of which were filed yesterday with County Clerk Lampton. Mr. De Mille's activities with the recently organized Producers Distributing Corporation also makes certain proper distribution of the pictures to be made at his studio, the former Ince property at Culver City.

Three organizations are but the most recent ventures of Mr. De Mille, who also is a vice-president and director of the Commercial National Bank.

**IMPROVEMENTS PROPOSED**

Utah-Idaho Sugar Company, through Kidder, Peabody & Co., Mitchell, Tully & Co., Central Trust Company and Rirth, Witter & Co., is offering \$7,000,000 first mortgage 6 per cent serial gold bonds to provide funds to retire a great issue of first mortgage and per cent serial gold bonds, to make extensive improvements and alterations to its factories, and for other corporate purposes.

Utah-Idaho Sugar Company is the oldest concern of its kind in the West, and ranking second in sugar beet production in the United States during the past ten years. The business was founded in 1889 in Utah, and by consolidations and expansions later increased its holdings until now it operates, directly or through subsidiaries, sixteen sugar mills in Utah, Idaho, Washington, Montana and Alberta, Can. The company also owns approximately 24,538 acres of farm lands,

## MARKET FACTORS PUZZLING

Flood of Bullish Reports Excites Traders; Oils, Rails and Industrials Receive Attention

BY EARLE F. CROWE

Traders in the stock market are finding the situation extremely perplexing at this time. Those who have taken profits and definitely decided to watch from the side lines are now fighting the urge to climb back in and take another turn or two. Perhaps the really nervous people are the holders of long stocks who feel that they ought to take profits but are unwilling to drop out while a few more points are in sight. And then there is the mass of amateur speculators that always buys at the top and sells at the bottom. Ordinarily this is the period of a bull market when this class of people contributes an armful of honest money to the managers of the market.

Altogether, the situation is suitably emphasized by the news developments in yesterday's markets. Beginning with the announcement of the Pan American negotiations, the speculators were treated to a regular orgy of bullish reports. This is the kind of news that invigorates wholesale participation in the stock market on the part of the general public, and generally signals the early culmination of the bullish movement.

**RAILS AFFECTED**

While the oils were the object of the greatest amount of attention because of the possible ramifications of the Pan American negotiations, the bullish reports were distributed among the rails and the various classes of industrials. All of these developments suggest the presence of forces within the speculative arena that may assume dynamic proportions at any minute.

The oil situation is especially interesting. The holders of Pan American stocks, as the action of the market yesterday indicated, are in a quandary. How will they be affected by the plan to sell the Mexican properties is a difficult problem to solve. Pan American Petroleum and Transport controls 95 per cent of Mexican Petroleum Ltd., the holding company, and naturally the Pan American stockholders have their ears open to the possibility of a cash distribution. However, the statements emanating from New York indicate that the deal is concluded, and an exchange of shares arranged for the present holders of Pan American.

Whether the new alignment will eventually include other companies in the deal is a debatable question. Some color is lent to this inference by the activity in several of the California oils recently, and the reports from the East that a banking group was negotiating for several of the new companies, including Coaden, Marland, Sinclair and others.

Aside from the fact that California Petroleum frequently has been mentioned in connection with the Pan American plans, the report was in circulation again that which, with a small exception are under cultivation, at a range of from 100 1/4 to 97.50 yield from 5 1/2 to 6 1/4 per cent, and are dated serially from March 1, 1925 to March 1, 1940.

**CONSTITUTE MORTGAGE**

The bonds, in the opinion of counsel, will be secured by a first closed mortgage or deed of trust on all the land, buildings, machinery, equipment and irrigation systems of the company, except farm lands which are exempt to facilitate transfer or lease to farmers, and by deposit with the trustee of the capital stock of the Canadian subsidiary. The factories in 1920 were appraised at \$20,442,000, and now, with one additional plant, are carried on the books at \$16,234,000. Net tangible assets of the organization, as indicated on the balance sheet of September 30, 1924, after deduction of all liabilities other than the funded debt, amount to \$27,931,257, or approximately four times the amount of the issue.

Earnings of Utah-Idaho Sugar have been satisfactory with the exception of 1923 when a loss of \$5,200,138.95 was recorded. The range by years follows:

**EARNINGS FAVORABLE**

Net earnings for ten years averaged \$2,069,533 yearly, or 4.92 times interest charges. Final figures are not yet ascertained for the fiscal year ended February 28, 1925, but it is estimated that net earnings will amount to approximately \$2,000,000, or 4.5 times interest charges, after deducting interest on current loans, and after charging \$1,127,100 depreciation as an operating expense.

Operations last year were not at maximum because drought conditions cut down the beet crop.

**STANDARD CONCERN REPORTS**

Standard Oil Company of Indiana, the first of the larger Standard Oil companies to make public its earnings figures for 1924, earned net \$40,788,849, or the equivalent of \$4.56 a share on the \$223,756,258 outstanding capital stock, as compared with a net income of \$41,533,433, equal to \$4.69 a share earned on the \$223,756,258 capital stock outstanding in 1923.

Gross profits last year were \$46,499,448 as compared with \$46,338,499 in 1923.

The general balance sheet also shows a favorable showing for 1924, the outstanding debt being \$1,127,100, or 2.5 times the working capital. After paying dividends of \$2.50 a share, the company added to its profit and loss surplus \$18,287,171 and increased its capital surplus account by \$2,866,905. Total assets were listed at \$361,481,961.

## NEW RAILROAD ALLIANCE MADE

Rock Island Obtains Control of Cotton Belt

Actual Merger Not Planned at This Time

Could Family Relinquishes Large Holdings

(EXCLUSIVE DISPATCH)

CHICAGO, March 11.—Acquisition of control by the Rock Island lines of the St. Louis Southwestern Railway, known as the "Cotton Belt Line," was announced today in Chicago and New York. The move struck Chicago financial and railway interests as a surprise. In fact, it had been considered that the next merging or grouping of southwestern railways would see the annexation of the Rock Island lines by the Southern Pacific, according to one authority, and it had been expected that the Cotton Belt system would have been included in a merger with the Frisco, Kansas City Southern, Missouri, Kansas and Texas, and roads other than the Rock Island.

**INDEPENDENT OPERATION**

"Announcement is made today from the New York offices of the Rock Island lines of the acquisition by the Rock Island of a dominant interest in the St. Louis Southwestern Railway (Cotton Belt). There will be no merger or consolidation at the present time, but the Cotton Belt will be operated independently under present organization without change of personnel. Messrs. Charles Hayden, chairman of the board of directors of the Rock Island; James L. Gorman, president of the Rock Island; M. L. Bell, vice-president of the Rock Island; and Nathan L. Amstar, director, were today elected to the Cotton Belt board of directors."

Speaking of the acquisition from New York, Mr. Hayden said that control of the Cotton Belt had been accomplished by the Rock Island and interests friendly to the road by obtaining a dominant interest in the stock of the company.

Edwin Gould, chairman of the St. Louis Southwestern, announced that in disposing of that road's holdings to the Rock Island, he had promoted what he considered to be the real destiny of the Cotton Belt line.

**GOULD'S STATEMENT**

"Alliance with the Rock Island," Mr. Gould said, "commends itself on geographical, traffic and economic considerations as a mutually beneficial arrangement and as a definite public advantage, as well as a logical development of legislative policy, which favors national and voluntary selection as against arbitrary or compulsory grouping."

The latest development immediately aroused speculation in Wall Street as to whether the combined Rock Island-St. Louis Southwestern properties would be drawn into the Southern Pacific system or form the nucleus of a new consolidation.

The change in control in the St. Louis Southwestern marks the passing from the Gould management of the last important western railroad which still remained under their direction. Recognition was immediately given to the Rock Island interests by the election of Charles Hayden, Marcus L. Bell, J. E. Gorman and N. D. Amstar to the Cotton Belt board of directors.

The Rock Island, which emerged from receivership in 1917, has a combined capitalization and funded debt of \$123,219,119, while the smaller road has \$102,633,600.

The Cotton Belt operates approximately 1800 miles of track in Illinois, Missouri, Arkansas, Louisiana and Texas. It has connections with the Rock Island at St. Louis, Cotton Rock, Briley, Ark., and Fort Worth.

**TEXAS BONDS SOLD IN PERIOD OF FEW HOURS**

(EXCLUSIVE DISPATCH)

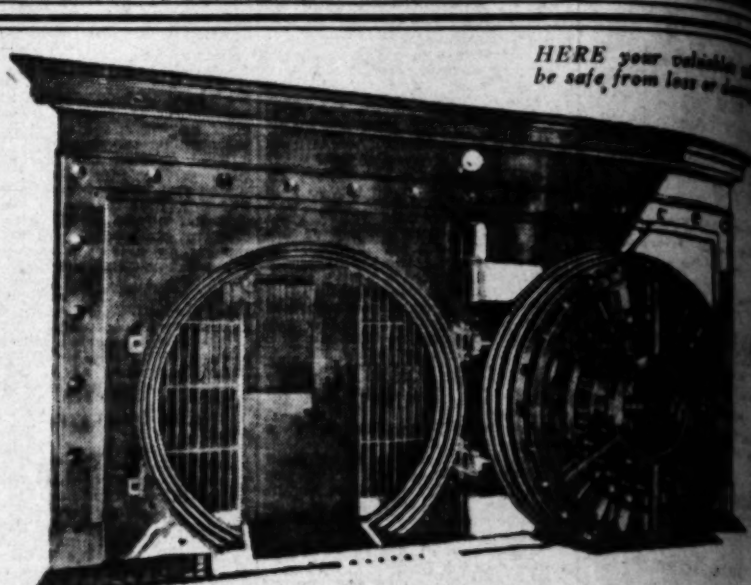

SAN ANTONIO (Tex.) March 11.—One million dollars' worth of 5 per cent bonds were sold at \$102 within a few hours on the New York market by brokers representing the San Antonio Joint Stock Land Bank, according to L. H. Hopkins, an officer of the bank.

The ready sale is believed to point to the fact that there is a bountiful supply of money available to be loaned on Southwestern Texas farm land, and this condition of a plentiful supply of money augurs a tendency to cut the big ranches into small farms. Funds of the joint stock land banks are loaned only on farm lands and the loans are at 6 per cent.

**ST. PAUL BREAK LOWERS PRICES**  
Weakness in Wheat Assists to Unsettled Stocks

**Rock Island Announcement is Surprise to Traders**  
**Copper Shares Bend Under Selling Wave**

(By A. P. NIGHT WIRE)  
NEW YORK, March 11.—Heavy liquidation of the St. Paul issue, which sold at their lowest prices in history on the widespread circulation of unconfirmed rumors that a reorganization of the railroad was inevitable because of its reported inability to meet heavy maturities next June, combined with another sharp break in wheat prices, unsettled today's stock market. The extreme decline in the active issue ranged from 1 to 5 points, with a few specialties breaking 10 points or more. Heavy buying of the steel and equipment issue before the close brought about a partial recovery.

**FAVORABLE ACTIONS**  
Speculative weakness over the St. Paul situation was counteracted to some extent by other favorable railroad news. This included the announcement that the Rock Island Railroad had acquired a controlling stock interest in the St. Louis Southwestern, and the declaration of a cash payment of \$5 a share on the common stock of the Western Pacific. Both of these announcements took the street by surprise.

**LOSSES TAKEN**  
Ludwig Steel broke nearly 8 points to 37 on the publication of reports that the insiders had relinquished control of the property. Weakness also was shown by American Tobacco, preferred, all of which closed 3 to nearly 10 points lower. American Woolen also touched a new low price for the year at 4 1/2, and then rallied to 4 3/4, where it was off 1 point on the day.

is Surprise to Traders																		
Copper Shares Bumped Under																		
Selling Wave																		
(BY A. P. NIGHT WIRE)																		
NEW YORK, March 31.—Heavy																		
liquidation of the St. Paul issues,																		
which sold at their lowest prices in																		
history on the widespread circulation																		
of unconfirmed rumors that a																		
reorganization of the railroad was																		
nearly complete, and the report of																		
a possible sale of the stock to the																		
ability to meet heavy maturities																		
next June, combined with another																		
sharp break in wheat prices, un-																		
settled today's stock market. The																		
extreme declines in the active in-																		
vestments, from 5 to 5 points,																		
with a few specialties breaking 10																		
points or more. Heavy buying																		
of the steel and cement just																		
before the close brought about a																		
partial recovery.																		
St. Paul common sold as low as																		
24 points, 3 points above the																		
figure, for a net loss of 24 points																		
the day. The preferred																		
declined a net loss of 2 points																		
at 174, after selling as low as																		
174. Officials of the railroad and																		
the bankers reported that there																		
was nothing new in the situation,																		
pending the report of the engi-																		
neers who recently made a physical																		
examination of the road's prop-																		
erty.

# GOLD STANDARD ECONOMIC NEED

Los Angeles Authority So Says in Report

Dr. Young Made European Study for Senate

Conclusions Are Compiled in Printed Volume

That European currencies should be placed upon a gold basis at or about the present exchange level, so that stabilization may aid in the economic rehabilitation of Europe, is the conclusion reached by Dr. John Parke Young, Los Angeles economist, in a report made to the Committee on Gold and Silver Inquiry of the United States Senate, which has just come from the government printing office.

Dr. Young was born in Los Angeles and graduated from Occidental College in 1917, later taking the degree of Doctor of Philosophy at Princeton. He was attached to the economic staff of Princeton, where he was engaged to make a personal investigation and obtain the material at first hand.

Only one volume of his report has been published. It contains 558 pages and is divided into four parts: Part I is a discussion by Dr. Young of the United States and currency problems of Europe; Part II is a collection of short papers on currency and finance, prepared by experts in the United States, Great Britain, France, Belgium, Italy, Netherlands, Germany, Sweden, Norway, Denmark, Austria, Hungary, Czechoslovakia, Poland and Russia; Part III is a more detailed study of the conditions in the countries named; and Part IV, consists of statistical tables and charts. The second volume is to be a continuation of Part III of the first volume.

Among the American experts who contributed papers are Prof. Irving Fisher of Yale, Prof. Jeremiah W. Jenks of New York University, Prof. E. W. Kemmerer of Princeton, Prof. E. R. A. Seligman of Columbia, and Henry M. Robinson, president of the First National Bank of Los Angeles and member of the Dawes commission.

"The introduction of the gold standard at the present time is possible in practically all European countries," says Dr. Young in his summary, declaring that inflation as a means of meeting budget deficits has nearly ceased, and that relative price stability is being attained in almost all countries. The difficulty of restoring depreciated currencies to their former value is so great that the alternative, devaluation, is being more seriously considered. It is well known that the inflation of a country which is already practically at war, Dr. Young continues, "Raising currencies to their former value is undesirable, even if it were practical, since this could undo the relief already done, but would merely add new evils."

"Sentiment in Europe opposing devaluation has become less, and although governments of the desire to accept formally or to discuss devaluation until reform is undertaken, devaluation is being generally realized as the necessity of devaluation. Banking and business interests are almost wholly in favor of devaluation. Until stabilization is effected, the accumulation of dissipated capital through inflation, and the pressure for lack of anything able to save, Dr. Young points out.

**FAVORS CONFERENCE**  
Dr. Young favors a general currency conference and international action leading to uniformity of currency units. There are now twenty-seven units in Europe, compared with ten in 1913, but the discarding of present units and the adoption of a new unit uniform for all countries are not a very difficult change. This would avoid, he says, the troublesome question of devaluation and would result in important benefits.

In his paper, Mr. Robinson calls attention to the maintenance of the German mark, which is at par without any gold cover whatever, and concludes from this that Europe can go on a gold basis with less gold than has heretofore been considered necessary. He looks for the free circulation of gold to be restored within the next year or so, rather gradually at first. In his article for the review, Dr.

# LIVE-STOCK MARKET

ESTIMATED RECEIPTS

Market—Cattle, calves, sheep, hogs, etc. Receipts for the week ending March 11, 1925. Cattle, 10,000; calves, 5,000; sheep, 15,000; hogs, 20,000; etc.

**LOS ANGELES MARKET**  
CATTLE—Active demand developed for yesterday's market. Receipts for the week ending March 11, 1925. Cattle, 10,000; calves, 5,000; sheep, 15,000; hogs, 20,000; etc.

**FAVORS CONFERENCE**  
Dr. Young favors a general currency conference and international action leading to uniformity of currency units. There are now twenty-seven units in Europe, compared with ten in 1913, but the discarding of present units and the adoption of a new unit uniform for all countries are not a very difficult change. This would avoid, he says, the troublesome question of devaluation and would result in important benefits.

# STEEL MEN TO DISCUSS PROBLEMS

Entire Week to be Devoted to Trade Matters; Expert to Give Counsel

For the first time in the history of the local structural steel industry, an entire week will be devoted to the discussion of problems confronting the steel fabricators and the outlining of logical solutions preparatory to launching a definite program of activities for the recently organized Southern California division of the American Institute of Steel Construction, according to Benjamin Harwood of the Llewellyn Iron Works, who is chairman of the local unit.

Beginning Monday, structural steel week will be formally celebrated throughout Southern California, headlined by the arrival from New York of Lee H. Miller, chief engineer of the American Institute of Steel Construction, and a gathering of approximately 500 steel fabricators, engineers, architects, builders, contractors, financial interests and others interested in the development of the local structural steel industry.

According to Mr. Harwood, the program for structural steel week will begin with a general assembly of estimators, draftsmen, contracting engineers and other members of the industry interested in the engineering aspects of the steel fabricating. Mr. Miller will devote Tuesday and Wednesday to meetings with heads of local structural steel plants and to conferences with workers at the various shops throughout the city.

On Thursday, officials of the various concerns will gather at the Biltmore Hotel for a conference with Miller. With approximately 400 in attendance, a banquet meeting will be held Thursday evening at the Biltmore. Mr. Miller will be the principal speaker.

A tour of structural steel plants in the neighboring cities of Southern California will occupy the remainder of the week. Groups of officials of the local industry will accompany Mr. Miller on these tours.

**Oil Production Shows Increase in United States**  
[BY A. P. NIGHT WIRE]  
NEW YORK, March 11.—The daily average gross crude oil production of the United States increased 700 barrels for the week ending the 11th inst., according to the weekly summary of the American Petroleum Institute. The daily average production east of California was 1,341,400 barrels, a decrease of 300 barrels. California production was 602,000 barrels, an increase of 1000 barrels.

Oil production in California for the week ending the 11th inst. averaged 602,000 barrels, a decrease of 300 barrels. California production was 602,000 barrels, an increase of 1000 barrels.

**Better Business Bureau Appears Against Agent**  
The activities of Hugh P. Fay in his asserted connection as promoter for the Music-Art Corporation were laid before the State Corporation Department by the Better Business Bureau in a hearing called before Deputy Corporation Commissioner Curren to investigate Fay's application for an agent's license. Fay, who asked to represent the Southwest Union Securities Corporation, was not present when the matter was called.

According to Parris Miller of the Better Business Bureau, the Music-Art Corporation was interested in the manufacture of phonograph records. Miller introduced a seal of one of these records yesterday bearing the name of "Supreme," and testified that a number on the seal corresponded with one on a record being manufactured by a national talking-machine company, and that neither Fay nor his corporation had authority to use this company's articles under the "Supreme" seal.

Deputy Parris took the application under advisement.

**WALL STREET GOSSIP**  
[BY A. P. NIGHT WIRE]  
NEW YORK, March 11.—Lee Rubber and Tire Company reports a net loss for 1924 of \$234,472 after charges and depreciation, compared with net loss of \$71,141 in 1923. The balance sheet showed a reduction of \$600,000 in notes payable during the year, bringing the total \$2,500,000 as of December 31.

Magnolia Petroleum Company declared two stock dividends of 1 percent each today, one payable April 1, and the other October 1, 1925. The balance sheet showed a reduction of \$600,000 in notes payable during the year, bringing the total \$2,500,000 as of December 31.

Imports of crude rubber into the United States in February fell off to 23,450 tons, compared with 31,769 in February, 1924, and 25,940 in January, this year, according to the American Rubber Association. Imports for the first two months of 1925 exceeded slightly the amount for the corresponding period of 1924.

**EXPERT ON FOREIGN TRADE WILL SPEAK**  
Ben F. Tregon, one of the nation's foremost authorities on foreign trade conditions, will be the guest of honor at the meeting of the Los Angeles Credit Men's Association next Tuesday night, which has been designated as "India's night" by the organization. Miss Clara M. Harrigan, chairman of the women's department of the association, will be in charge of an elaborate program to be presented. Mr. Tregon will stop off in Los Angeles while en route to San Francisco to preside at the fifth annual conference of credit men, the 20th and 21st inst. and where he will assume the executive chairmanship of the Pacific Coast department of the National Association of Credit Men. F. M. Cluck and O. C. Reichert, in an introductory debate on the subject of "Why Not Abolish the Credit Department?"

# THE SHOREHAM

Co-operatively Owned

RESIDENTIAL APARTMENT HOTEL

On the Crest of the Palisades

SANTA MONICA

Following is the opinion of an internationally recognized hotel executive—

LOS ANGELES BILTMORE

Major H. Gooding Field, President, Shoreham Apartment Hotel Company, Santa Monica, California.

Dear Major Field:

The financial and operating plan, which you have devised for the co-operatively owned Shoreham Apartment Hotel at Santa Monica, California, is, in my opinion, a very sound one. There is no reason why an undertaking, possessing the assets of the Shoreham should not be a pronounced success.

The large co-operatively owned apartment hotels in New York and the large eastern cities have long since passed the stage of experimentation, and apartments in these palatial structures are now sold by any of the most practical facilities in America.

You have a location on the Pacific Coast, in such close proximity to Los Angeles by beautiful boulevards, which is unsurpassed, and the character of the building of the Shoreham, with its strictly modern and up-to-date features for apartment owners (11), undoubtedly, supply a long felt want among those who desire a permanent home with the latest type of living conditions in charming surroundings.

Your many years of experience in New York and large eastern cities as an organizer and executive of north shore business enterprises as such, under your direction and sponsorship, not only the Shoreham but other similar beautiful hotel structures in Southern California will be pronounced successful.

With best wishes,

Sincerely yours,  
Wm. J. Gerke

A selection of unsold Apartments can now be made and interior plans adjusted by the architect to meet the requirements of the individual purchaser.

THURSDAY MORNING, MARCH 12, 1925.—PART II. 20 PAGES.

## MOUNTAIN-LIKE LETTER PILE IN FRIENDSHIP CONTEST

### Back-East Missives Continue to Arrive After Close of "The Times" Event

Workers have large task in opening, sorting and arranging the mountain of letters received and still coming in from contestants in the Friendship Contest of letter writing, sponsored by The Times, which closed last Tuesday.

## CITY HALL HEARING ENDS

### Testimony on Protests to Valuation of Land to be Condemned Finished; Decision Soon

Testimony taken on protests to the referees' report fixing prices to be paid by the city for land to be condemned for the new City Hall was completed yesterday and the several cases will be submitted this morning on briefs, Judge McLuskey said yesterday. The cases have been on trial for five weeks.

## RESIDENTIAL ZONE RULING IS RECEIVED

### Opinion Says Establishing of Single-Family District is Inducement to Owners

That the establishment of single family residential districts offers inducements practically to all classes to own their own homes and provides for a more substantial future for the community, is one of the statements contained in the recent Supreme Court opinion affirming the decision of the local Superior Court that the city's zoning ordinances are legal.

## LOCAL BOY'S HEROISM IS RECOGNIZED

### Los Angeles Lad Receives Scout Medal for Saving Comrade from Cliff Fall

A loose rock gave way and William Holl, 12 years of age, of 3155 Minnesota avenue, slipped over the edge of a thirty-foot cliff near his home. He caught a small shrub, a few feet below the top and stayed his fall. He was walking with Holl when he was pulled his companion back to safety. This was four months ago.

## JAPAN SAID TO LAG IN FLYING

### Danish Aviator States Nippon is Behind Other Nations

Reported Heavy Increase in Number of Planes Denied

Visitor Tells London-Tokio Polar Air Line Plans

Reports recently current in this country to the effect that Japan is increasing her air forces to the extent of 500 planes a month are utterly without foundation, according to a Danish aviator who was in Los Angeles yesterday.

Mr. Hammer arrived at the National headquarters of the Boy Scouts of America yesterday morning on his way to London. He recognized his Japanese co-operation in the initial steps toward the establishment of a 5000-mile air route from London to Tokyo via the Pole.

The truth of the matter regarding the Japanese aviation situation is that Japan is far behind any other nation in the development of aerial transportation, said Mr. Hammer. "Aviation was not taken up in Japan until 1919, when a group of French aviators was sent to that country to instruct the Japanese in the use of planes."

"I had an opportunity to obtain considerable information on the subject of air development in Japan during my stay there and I should say that the Japanese at this time are not constructing more than forty planes per month. While the Japanese make good pilots they have not as yet attained much skill in handling aircraft and the number of smash-ups just about equals the number of new machines."

**POLAR AIR-LINE**  
Mr. Hammer was successful in enlisting Japanese interest in his projected polar air-line from Tokyo to London. It was agreed to furnish him with a Dornier plane equipped with a 500-horsepower Rolls-Royce engine and having a flying range of thirty hours. The machine is a specially constructed hydroplane, carrying six runners in addition to the main landing gear.

"The initial flight will be attempted next June," said Mr. Hammer. "The route will be divided into three parts, the first extending from London to Spitzbergen, the second from Spitzbergen to Alaska, and the third from Alaska to Tokyo. The second leg of the journey will pass directly over the North Pole, and the entire route will aggregate only 5000 miles, or 5000 miles less than the present route around the world."

While the Japanese make good pilots they have not as yet attained much skill in handling aircraft and the number of smash-ups just about equals the number of new machines."

**ALL-YEAR CONCERTS TO BE HELD**  
Ten-Cent Symphony Events Planned Next Spring; One of Old Series Sunday

Los Angeles will be the first city of the country to have all-year symphony concerts as a result of a decision reached last night by the board of the Philharmonic Orchestra and the Community Development Association.

Leaders of the civic-music movement voted to give a series of 10-cent symphony concerts next spring, the number of which will be dependent upon the success of the three concerts this season. As the Hollywood Bowl Association provides the summer music and the Philharmonic Orchestra the fall and winter series, the program for the spring months will give Los Angeles concerts all year and will make this city the only one in the country to have symphony music every month.

Next Sunday in the Coliseum at Exposition Park the second of this year's series of three 10-cent symphony concerts will be given by the Philharmonic Orchestra. The program is scheduled to start at 2:30 o'clock. More than 30,000 are expected to hear the concert.

"Support of the concert of this year will enable us to do more great things musically next spring," said Caroline R. Smith, chairman of the Philharmonic Orchestra.

**RED CROSS VETERAN IN CITY**  
Secretary of National Organization in Quest of Fund for Memorial Building at Washington

Efficient, poised, resourceful, vigorous mentally and physically are the characteristics of Miss Mabel T. Boardman, secretary of the American Red Cross, as revealed in a brief interview yesterday.

Miss Boardman, who arrived in the morning from Washington, D. C., found every moment of her time outlined in program. But at last, she said, she made her happy and contented. The quest is twofold—to aid in the erection of a memorial in Washington to the sacrifice and service of American womanhood in the World War, and to develop volunteer service in Los Angeles among women as preparation for the future.

Los Angeles among women as preparation for the future. The quest is twofold—to aid in the erection of a memorial in Washington to the sacrifice and service of American womanhood in the World War, and to develop volunteer service in Los Angeles among women as preparation for the future.

**HAVE STRIKING SIMILITUDE**  
Baronial Twins So Much Alike They Can't Tell Selves Apart; May Become Angelinos

Perhaps it would be stretching it a bit to refer to Paul William Quarles van Ufford and Theodore Philip Quarles van Ufford as baronial twins. They are sure enough twins and they are both barons.

The twins, who are 30 years of age, and as much alike as the proverbial pair, arrived at the Blithedale yesterday for a visit of several days in Southern California. Their ancestral home is in Glinne, near Breda in Holland, but for some three or four years the twins have been traveling about the world. They have spent a good part of their time in the United States and some time ago established a sort of headquarters at Sacramento.

"No, we have not settled down," said Theodore Philip, who is distinguished from Paul William only by being five pounds heavier. "We are still traveling and contemplating."

**WOMAN MAYOR IN STATE**  
OUT OFFICE ON ACCOUNT OF IL HEALTH, SAYS RUMOR

San Francisco, March 12.—Mrs. Jessie Nelson, Mayor of the city, is said to be the only female civic executive in the United States, and is preparing to resign from that job. She has been absent from attending the meetings of the Board of Trustees of the city, and her absence has been the subject of much speculation.

**WOMAN IS INJURED BY HONEY BEAR**  
Museum Crowd in Panic as South American Bruin Turns on Trainer

A South American honey bear, an exhibit in a Main-street dime museum, injured its trainer, Miss Naldi Westlake, 24 years of age, of Palms, and caused a panic which rapidly emptied the museum last night.

The animal attacked Miss Westlake when she opened the cage in full view of the crowd that filled the dime palace of wonders. She was clawed and bitten on the right shoulder and breast before the animal could be forced back into the cage. Miss Westlake was treated at the Receiving Hospital for her injuries and later removed to her home.

The honey bear is not much larger than a fox, but is noted for its ferocity. It has razor-like teeth and claws and is reputed to be rejected yesterday by the City Council.

**COYOTE INVADES CITY STREETS**  
Autoists Join in Wild Chase and Surround Him in Garage Only to See the Captive Flee After Show of Teeth; Last Seen Going Strong on Temple Street

Dwellers in the vicinity of Vermont avenue and Temple street may be treated this morning to some unaccustomed music. If they are, it will mean that an over-night rest has restored one of the city's wild animal dwellers to his place of mind.

Yesterday T. L. Tally of 3014 Leeward avenue, motoring west on First street, near Alvarado street, saw trotting ahead of him on the pavement a lean, brown animal. He took another look and saw it was a coyote. He took another look and saw it was a coyote.

Coyotes are no longer plentiful in this section and he gave chase with his car. The owner of a limousine was the first to discover the coyote at last disappeared into the bushes. Temple street was going on, and he also joined in the chase. At Rampart Boulevard both the cars and the coyote were

gaining speed and the pursuers now numbered a dozen or more. At Occidental Boulevard the unaccustomed music was left without giving a signal, and the necessity of signaling put his pursuers back.

By the time several men on foot joined in the chase the coyote had made several blocks west and had taken refuge in a dark structure, one skiff with a liar, roped him and dragged him out, but when the captors attempted to get more intimate with the beast he made a sudden flurried use of claws and teeth, escaped his captors and his bonds at the same instant, and was off again, heading north.

Going better for coyotes and not so good for motorists was encountered in the second chase and the coyote at last disappeared into the bushes where Temple street leaves off. If he did not hike for the hills under cover of nightfall, he may sing a morning song there today.

**AUDITOR TO LECTURE**  
"Accounting for Co-operative Enterprises" is the subject of a lecture to be given Monday evening, by F. O. Wallischlaeger, auditor of the California Fruit Growers' Exchange, under the auspices of the Accountants Educational Institute, 630 Black Building Fourth and Hill streets.

**LITTLE TOWNS**  
A doctor or anybody else who leaves a little town for a city is missing much happiness and peace of mind. This is particularly true in California, where the little towns are, in reality, tiny cities with every possible modern convenience—with the hectic fever of city life left out.

**THE COUNTRY DOCTOR**  
The American Medical Association is alarmed. They can't find young doctors who will stay in little towns. They all want to rush to the cities. The "family doctor" who brings the babies into the world and then doctors them all their lives; and brings their babies into the world is in danger of becoming an extinct species. He went out with the old lank, lean, sleepy "doctor's horse."

**THE PRINCE OF WALES**  
When the Prince of Wales first visited America he was, most of the time, in charge of a friend of mine—a newspaper man named Pullman, who had been appointed Chief of Police of Washington, D. C. One night, Pullman had delivered the Prince's safety at the White House for a diplomatic dinner. As he was starting away, the Prince looked at him wistfully and asked: "Where are you fellows going?" Pullman told His Highness that he and some newspaper men were going to have a little Dutch-restaurant dinner. "Gosh, I wish I could go along with you and have a good time, too," said the little Prince sadly.

**THE COUNTRY DOCTOR**  
The American Medical Association is alarmed. They can't find young doctors who will stay in little towns. They all want to rush to the cities. The "family doctor" who brings the babies into the world and then doctors them all their lives; and brings their babies into the world is in danger of becoming an extinct species. He went out with the old lank, lean, sleepy "doctor's horse."

TERS TO Times

onal Highways  
—(To the Editor of The Times:) The  
presenting letter from Mr. Thomas H. Dyer  
from Salt Lake to Los Angeles, but it is  
has made this trip via the Arrowhead  
not understand the physical difficulties  
usable road of this route, which would be  
ough which it passes for a considerable  
to Nevada.

PEN POINTS

Once it was a crime to refuse  
the drinking supply; now it's a  
reer.

Hint to husbands: One way to  
have the last word is to say it with  
flowers.

The grade-crossing accident may  
be unavoidable, but the least  
wasteful.

Americanism: Howling for  
lary water cups; drinking from the  
same bottle.

You can now get a satisfactory  
analysis of almost everything except  
sausage.

Some of the golden wedding  
however, happen fifty years before  
the golden anniversary.

Dante heard the wailing of the  
damned, but the saxophone had  
was invented later.

Even a modern couple seem  
able to get along without a dress  
if both parties have sweaters.

There are dreary moments when  
we think Americans have little in  
common except pyrrhus.

You can't dodge puzzles. If you  
don't care for cross-words that  
are the parking ordinances.

In a hard-boiled world like  
haven't yet invented a way to  
make a simple look sophisticated.

We are old enough to doubt  
a generation's contempt for his  
ants indicates progress.

And so the death rate is lower  
Well, experience makes good  
ers of us all.

It's a funny country in which  
high officials gravely discuss the  
advisability of enforcing the law.

Eventually, perhaps, people  
be unanimous about everything  
cept the proper length of a shirt.

When you read that the  
have been withdrawn from a  
hava repulse, it may mean  
that the interest has been paid.

Correct this sentence: "The  
seats are undesirable," said  
movie fan, "but we won't change  
when the lights go on."

You never can tell. The  
mouth doesn't always put up  
a sound argument.

Many a man's only idea of  
ty is to give advice he has no  
for himself.

Never trust to luck. Pulp  
tenths of all the people in the  
world guess wrong.

One advantage of the radio  
that the upkeep isn't much if you  
on the receiving end.

Even when a man starts  
thing he can't finish it. It  
leads to an embarrassing end.

There are times when  
can't compete successfully with  
loud outpouring of an empty  
mouth.

RIPPILING RHYMES

DAY OF DOOM

I know not when this world  
end, nor greatly do I care, as to  
daily task I bend, with both  
in the air. I know not when  
final trump may sound the  
down; while I keep a pile  
bump and help to make  
boom. I'll keep a pile  
shelf, that hungry men may  
I'll love my neighbor as myself,  
shun the piker's deal. I'll  
the stranger from the door,  
beaten by the poor and  
lacks to all. I'll pay my  
they are due and a sermon,  
dime, and hear a sermon,  
pew, when I stake the neighbor  
chime. I'll stake the neighbor  
is broke and cheer the  
no let the world go to  
do not care a hoot. If one  
ways does he beat his  
unworn, so call it  
his breast when the  
are sprung. "Bring on  
cynics dire, I'll  
cries he: "Let all  
wreathed in fire. I'll  
with me. For always  
journing here. I'll  
I know; and there is  
should fear, of whom  
are true. If one  
fear and dread, the  
vans know, he'll  
his had a comrade  
away."

ARIZONA NIGHT AT KHJ STUDIO

History of State and Music Interpreted

Group of Desert Songs Heard

Newcomer Appears on Mainstage Bill

CHAMBER FORBES CRANE

At the State in the Union,  
the spirit of romance lies  
in the heart of the desert.  
The history of the desert,  
the most intriguing,  
the Pacific Mutual  
Company devoted  
program to Arizona his-  
tory and musical and literary gems  
of the region.

History of Arizona is more  
than almost any other  
state. Its history begins with the  
to the desert in 1535 of Alvar  
Ortiz de Vaca, who led  
the first expedition to investigate the  
region in hope of wealth.  
The Grand Canyon and the  
desert first discovered in  
the beginning of the nine-  
teenth century. February 4, 1863,  
the United States Congress  
passed our great family  
and we have never had  
a regret that she is one of  
our states.

COMPOSER HEARD  
The high light of the occasion  
the musical appearance of  
the hour. More than any  
composer she has studied  
traditions, which fill the  
the music of our Southwest.  
Her group of Desert  
songs beautiful in their sim-  
ple and familiar with a cul-  
ture's master craftsmanship.

Although this was Mr. Cam-  
pelli's first program, we hope  
he has become enough of a  
radio to constantly re-  
turn to and let the family  
circle benefit by his keen in-  
sight and splendid piano  
playing.

At 7 o'clock the Valvoline  
Club, playing through the cour-  
tesy of the Valvoline Oil Com-  
pany on the air. As usual  
the program was a half-hour  
of music, done deftly and with  
charm which always charac-  
terizes the playing.

The program presented the  
the Orchestra under the  
direction of Kenneth M. Moore. An  
interesting segment was Roscoe  
Johnson, who, accompanied  
by the Valvoline Club, sang sev-  
eral songs. He displayed  
the true tenor which was  
style and discretion.

FRIEND RETURNS  
The friend who found his  
way to KHJ, was Arthur  
Hill, who is to be heard  
on the radio, Fred  
the radio garden,  
out a number of prob-  
lems through the courtesy  
of the Valvoline Oil Com-  
pany. His program was  
presented over the pro-  
gram, and his or-  
chestra under the direction  
of the Valvoline Club, gave a num-  
ber of songs.

Correct this sentence: "The  
seats are undesirable," said  
movie fan, "but we won't change  
when the lights go on."

You never can tell. The  
mouth doesn't always put up  
a sound argument.

Many a man's only idea of  
ty is to give advice he has no  
for himself.

Never trust to luck. Pulp  
tenths of all the people in the  
world guess wrong.

One advantage of the radio  
that the upkeep isn't much if you  
on the receiving end.

Even when a man starts  
thing he can't finish it. It  
leads to an embarrassing end.

There are times when  
can't compete successfully with  
loud outpouring of an empty  
mouth.

RIPPILING RHYMES

DAY OF DOOM

I know not when this world  
end, nor greatly do I care, as to  
daily task I bend, with both  
in the air. I know not when  
final trump may sound the  
down; while I keep a pile  
bump and help to make  
boom. I'll keep a pile  
shelf, that hungry men may  
I'll love my neighbor as myself,  
shun the piker's deal. I'll  
the stranger from the door,  
beaten by the poor and  
lacks to all. I'll pay my  
they are due and a sermon,  
dime, and hear a sermon,  
pew, when I stake the neighbor  
chime. I'll stake the neighbor  
is broke and cheer the  
no let the world go to  
do not care a hoot. If one  
ways does he beat his  
unworn, so call it  
his breast when the  
are sprung. "Bring on  
cynics dire, I'll  
cries he: "Let all  
wreathed in fire. I'll  
with me. For always  
journing here. I'll  
I know; and there is  
should fear, of whom  
are true. If one  
fear and dread, the  
vans know, he'll  
his had a comrade  
away."

talk delivered by Dr. Mars Baum-  
gardt.

This coming Saturday night you  
will be treated to an exceptional  
program presented by William H.  
Hyatt, whose office in the Merritt  
Building houses one of the most  
unique forms of commercial en-  
tertainment in the contracting field.  
Program arrangements have been  
placed in the hand of J. Howard  
Johnson, who has assembled a  
galaxy of radio favorites. So don't  
miss it.

Program presented by the Pacific States Elec-  
tric Company, presenting the Arion  
Trio and Gentry L. Baskett, mezzo-  
soprano.

6 to 6:30—Art Hickman's Concert  
Orchestra, playing in the Bill-  
more.

6:45 to 7:30—Children's hour.  
Presenting Prof. Walter Sylvester  
Hertzog in his American history  
story; Joyce Coad, 6-year-old read-  
er; Dickie Brandon, screen juve-  
nile; Rosalie Tuso, child soprano,  
and Mrs. Max Paul Keppel in  
readings.

7:45—Dr. Philip M. Lovell will  
give the next in his splendid series  
of talks on "The Care of the  
Body."

8 to 9:30—Program through the  
courtesy of C. S. De Lano of the  
De Lano Studios—mandolin, guitar,  
banjo, Hawaiian steel guitar and  
ukulele. The program will present  
the De Lano Hawaiian Guitar Club  
and assisting artists—Mrs. A. G. S.  
Peterson, soprano; Mrs. W.  
Schloot, accompanist.

9:30 to 10—The Valvoline Trio,  
appearing through the courtesy  
of the Valvoline Oil Company.

10 to 11—Art Hickman's Dance  
Orchestra playing at the Billmore.

Auto Containing  
\$15,000 in Gems  
Loot of Thieves

Diamonds valued at \$15,000  
were carried in an automobile  
stolen from Maurice Rudman,  
salesman for the E. Bastheim  
Jewelry Company, 405 Title Guar-  
antee Building, yesterday after-  
noon, he reported to police. The  
gems were set and unset and were  
carried in seven grips and a brief  
case.

The automobile had been left  
parked in front of 448 Frank  
Court Place by Rudman during a  
few minutes he used in going to  
the office of the jewelry company  
and returning to the car, he said.

Detectives were detailed to  
search for the machine, a descrip-  
tion of which was furnished by  
Rudman. The thieves are be-  
lieved to have followed Rudman  
until he left it.

JURY TAMPERING CASE  
ORDERED RESUBMITTED

Because of a defect in the in-  
dictment, the charge of jury tam-  
pering against Wilbur Campbell in  
connection with the first trial of  
Kid McCoy, was yesterday held in  
abeyance by Judge Hahn and Dep.  
Dist. Atty. Shelly was directed to  
submit it again to the grand jury.  
As the case came before the 1924  
grand jury, now no longer sitting,  
the evidence may have to be pro-  
duced all over again. Campbell,  
it is asserted, telephoned to John  
J. Apple, one of the McCoy jurors,  
and tried to influence his attitude.  
Apple refused to talk with him and  
reported the matter to Judge Crail,  
who caused Campbell's arrest.

NEBRASKANS TO DINE

## Build your body back to health

TANLAC is a great natural builder. It revitalizes the blood, stimulates the digestive organs, rejuvenates the liver and keeps you up all over.

From the four corners of the earth we gather the roots, herbs and barks that go into Tanlac. We compound them after the famous Tanlac formula that has brought health to millions.

Our files are crammed with testimonials from men and women in every walk of life, who state gratefully that Tanlac has brought them back to vigorous strength.

If you suffer from indigestion, loss of appetite, can't sleep or rest; if rheumatism is making life a torture; if your liver is out of sorts and your body has run down to skin and bones, get a bottle of Tanlac at your drugstore and start taking it right away.

You'll be amazed to note the improvement that comes at once. For the first time in months you'll feel like eating some good solid food. You'll wake up in the morning rested and refreshed, ready for a good day's work. First thing you know you'll have some color in your cheeks and the sparkle of health back in your eyes.

Don't put off taking Tanlac. Begin now if you want to build your body back to health and vigor.

## THE NEW

IN STORES AND HOMES  
NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS

By Olive Gray

Oh, let's cultivate some fad or become a collector of something precious or valuable—anything to give an object other than the daily grind. Everyone should have both a vocation and an avocation. Whether the vocation is business, profession, or social, there should be an aim in life quite removed from the pursuit. Then, when health fails, or circumstances change, a pursuit interesting and possibly of lucrative value, remains. Nothing is so pitiful as a "retired man, without an aim," or a woman with nothing to do but to "wait" or "tattle."

Lingerie Straps

A novelty on the notion comes in the form of lingerie straps for over the shoulders of chemises and slips. Woven from silk in various colors, popular for lingerie, these straps are detachable, being furnished with buttonholes, to pass over buttons attached to the garment. Thus easily removed and also washable, these little straps prove not only a convenience but an economy. Now that many women have their underthings to match top garments, many such are desirable—if one chooses a variety of colors for one's wardrobe.

Folkies

The polka dot comes out boldly in many of the new silks of summer textures. Especially in black and white, and in white and black are these dots striking. For a tunic, to wear above a separate skirt, a stunning one recently seen was closely fitted, in the usual straight line, the ground color of the top garment matching that of the skirt.

Separate Skirts

Separate skirts, by the way, answer to the definition "When is a separate skirt not a separate skirt?" When it is attached to an undergarment, becoming—although it may not call itself so—a sort of a costume slip.

The Jabot Augments

The jabot continues to multiply itself upon dresses, gowns and wraps for spring and summer. Sometimes it appears integral to the garment, fashioned from self fabrics, again it is in contrast both as to material and tint. In many cases it is likely to be of lace or not, toned to a deep beige or sand shade. Often it meanders down the side from shoulder to hem, or it is a straight line from neck to hem, directly in the middle of the pencil-neck, lending by its presence that somewhat of fullness, in effect, which is one of the contradictions of the season's mode.

Eastering

Although it may seem a far cry, Easter is really quite near—not a jot too remote, in fact, for one to prepare the wardrobe for that occasion. Even though one may not plan to join the Easter parade, one should bargain with oneself for a certain time at which clothes will be in readiness for the coming season. Easter, by common consent, is such a time. So—away to Eastering!

Easter Gifts

Easter seems an especially proper time for gifting—next to Christmas itself, in fostering the "for others" spirit. Many are the presentable gifts in the stores just now. Personal gifts, churchly gifts, gifts for the home. She who would give the personal touch may find such in needle-work, for presentation.

Footed

With the vogue of lace, comes the use of footed, or fine edging of net, upon ruffles, flounces, collars and cuffs. Especially is the dainty finish appropriate for soft, clingy silks, crepes, voiles and chiffons, which fabrics will characterize dress for spring and summer. Sometimes the footed is in white or cream color, again it is dyed to match the prevailing tone of the dress material.

Same True of Laces

The same is true of laces. They are used either in natural tints, in a deep beige or ecru or are dyed to correspond with the fabric of the garment which they adorn.

Metallics

Metallic laces, braids, bands and such trimmings, intermingled with other materials are as popular as heretofore, new ways of putting them to use coming into practice daily. One favored method is that of embroidery upon metallic lace—either gold or silver—the applied color in tone with that of the garment. Another is to apply hand-made laces of silk or ribbon—novel designs being devised.

La Mode's Crescendo

Embroideries may be of exotic oriental influence, or decidedly modern. The silk suit is excellent for spring.

Paris shades lead in all woolen materials. A chic neckline is the deep, loose narrow V.

The slender silhouette becomes more supple. In Kaisha, natural shades, beige and gray lead. Paris clings to its devotion to natural Kaisha.

On every frock, the back is invariably plain. One rarely sees any sleeves at all for evening.

The waist-line is either quite low or entirely ignored. Suits are less severely tailored but adhere to the masculine effect. Even the coats endorse the front and side-front fullness. Fluids are especially good as linings for the ensembles.

## The Woman and Her Job

(Questions concerning the problems of women will be answered in this column if addressed to Mrs. Watrous at The Times.)

### WHEN ART FAILS

"Three things the world must have: Clothing, amusements, food; and the most important of these is food," said my snow-haired philosopher whom adversity has sweetened, as she beamed at me across the counter in her little orange and gray food shop.

"When art failed me, I didn't quarrel with her. Why quarrel with the friend who always offers solace in lonely hours? But I determined to open a fancy food shop."

"I felt sure there must be people who would enjoy crisp, flaky rolls! Those boys across the street! Wouldn't they like a bit of cake—tender, crumbling slices thickly frosted with coconut? The merry ones turned to the case where just such a cake rested on a lace-paper dolly edged about with a frill of orange tissue paper."

I looked about the dainty shop, nestled in its French gray enamel, warmed by touches of orange in different patterns, the "just far enough" foods set in even rows on the shelves. What the world had lost when art abandoned my friend, it had gained when she joined the "appetite appeal." A Santa Monica car whirled past, but two young women came in and the store of choice rolls had been diminished when they left.

I began an interesting experience, this keeping a shop. The snow lady continued. "There's the woman who makes my pie—bottle, flaky crusts and delicious fillings—they formerly owned a large restaurant that did a business of from \$1500 to \$2000 a day. 'As this couple climbed the hill of prosperity, the burden of the business fell on the wife. The husband 'stepped around' with fine friends. Spending was his chief accomplishment. Reverses came, and finally the last remnant of property was sunk in oil stock."

The wife told me that she had spent years in trying to retrieve what her husband squandered. When the end came she determined to move into town and bake pies for a living—but this time what she earned would be for herself, and whenever a dollar was spent she'd know where it went and how.

"So here we are—I, a devotee of art—keeping a food shop; and she, across the court there is a dear Russian girl, who is making adorable tea-tiles—she who has known Petrograd and Paris."

We clasped hands at parting and I wished the new enterprise a prosperous spring time. "And you'll go see the Russian, won't you?" she called as I closed the door. I hesitated an instant. Was there a story there?

Then I entered the Volga tile shop across the court.

ANSWERS TO QUESTIONS  
My dear Mrs. D.: The schools teaching calculation machine operation require about four to six weeks, eight hours a day. Since the Board of Education has taken over the linotype schools the time required is two years and four months. They require two years of hand composition before you are allowed to take the training on the linotype. I understand the Merzhauber people, who manufacture

## SID CHAPLIN MAY APPEAL TO COOLIDGE

White House Plea Planned if Authorities Insist on Deporting Mother

If the United States immigration authorities will not reconsider their decision ordering Mrs. Hannah Chaplin, mother of Charlie and Sidney Chaplin, out of this country by the 25th inst., Sidney Chaplin will go to Washington and put the matter before President Coolidge.

The plan was related by Chaplin yesterday, who expressed hope, however, that the decision of the immigration authorities is not final. "My mother is ill," he said. "Recently we have had five physicians examine her to decide whether she should have an operation for gall-stones and they were afraid to advise it. I would be afraid to give my consent. It can readily be seen that my mother is not able to travel right now."

He said Mrs. Chaplin is suffering from a nervous shock but that her mental condition is very much improved since she has been under expert treatment and has been able to see him and his brother, Charlie.

"We think mother should be where we can see her," he added. "I don't know whether it would do any good for me to see the President, but I am going to make the effort if the matter cannot be arranged with the immigration authorities."

Mrs. Chaplin, who is past 40 years of age, was allowed to enter this country for a year after the war. The time was twice extended at the request of the Chaplin brothers. The immigration officials have refused to consider any other extension, however, and have notified the Chaplin attorneys in the past that the mother must be sent out of the country by the 25th inst.

If she is moved, Mrs. Chaplin probably will be sent to Canada or Mexico, her sons say.

## Council Asked to Ban Burials in Old Cemetery

A petition with several hundred signatures of property owners was filed yesterday with the City Council asking that an ordinance be adopted prohibiting further burials in Calvary Cemetery near Elysian Park, one of the landmarks of old Los Angeles. Since there has been no burial there since 1896, it is assumed at City Hall that the petition is a step in a movement to abandon the cemetery.

The petition sets forth that the cemetery is in the center of an industrial and residence district and is "unsightly."

KANSAS TO MEET  
Former residents of Kansas will meet in their March reunion this evening in the Disabled Veterans' Hall at 246 South Hill street. A surprise program will be offered. Dancing will follow the program.

## New Police Pistol Range at Elysian Park Opened

**Police Officials Fire Opening Salvo.** A salvo of twenty-three revolvers in the hands of Police Chief Heath and twenty-two division commanders, all in full uniform, officially opened the new police pistol range in Elysian Park in the presence of a score of prominent local business men and military officers. The range, which was constructed under the supervision of Range Master Ronald French, is a unit in the plans of the department to increase the efficiency of the force. Photo was taken just before the salvo was fired. (Times photo.)

**Federals Seize Fortune in Liquor.** Scotch whisky, champagne and wine valued at \$75,000, and an eight-gallon bottle of cognac valued at \$8100, were seized early yesterday morning by Federal prohibition agents as the culmination of a long liquor smuggling investigation begun two months ago under the direction of W. W. Anderson, district attorney. Four men, Tony Cornero, Ole Johnson, Lloyd Watts and E. W. Demeier, were arrested in connection with the seizure. Photo shows the liquor as it was loaded aboard four trucks to be taken to Federal warehouse.

**Pavlowa on Fifth Visit Here.** Mme. Anna Pavlowa returned to Los Angeles yesterday for the fifth time to appear in a ten-day engagement at the Philharmonic Auditorium, beginning last night. L. E. Behymer, local impresario, shown above greeting her at depot. (Times photo.)

**Secretary of American Red Cross Here.** Miss Mabel T. Boardman, secretary of the American Red Cross, arrived in Los Angeles yesterday for the purpose of developing volunteer service among the women of the city. (Times photo.)

**Lumberman? Sure, He Drove Lumber Wagon.** When Marie Mack (above) married Donovan Lee Cook, he led her to believe that he was a "lumberman" of some means, she asserts. Yesterday she told Judge Summerfield that Cook drove a lumber truck. Annulment for fraud. (Times photo.)

**Harry Warner Quits Hollywood.** Harry Warner, president of Warner Brothers, accompanied by his wife, left last night for New York, where he will devote his time for an indefinite period to the management of the end of Warner Brothers' interests.

**No Toll of Life in Serious Blast.** A gasoline explosion, which miraculously injured no one, which occurred at Owenyo, near Lone Pine on the S. P. line, resulted in the destruction of two carloads of gasoline and two of crude oil. Photo taken at night as flames consumed cars. (Photo by Watson.)

**It's Tough on the Octopi.** Members of the zoology department, U.S.C., shown above as they search the rocks on the San Pedro breakwater for sea specimens. The specimens are taken to the laboratory, cut up and studied. (Don Gillum photo.)

**Mother Can't Tell 'em Apart.** The Barons Van Ufford; P. W. Quarles and T. P. Quarles, twins and scions of an aristocratic Dutch family, dropped off in Los Angeles yesterday to take a peek at Hollywood. (Times photo.)

**Following in Dad's Footsteps.** Col. Theodore Roosevelt (left) and Kermit Roosevelt (right), with George K. Cherry (center), will head an expedition this summer into Central Asia for the purpose of scientific research. (P. & A. photo.)

**Succeeds Mitchell.** Lieut.-Col. James E. Fechet (above) has been named to succeed Brig.-Gen. Mitchell, relieved as a result of air force disclosures. (P. & A. photo.)

What a Pity  
To waste a day.  
A pleasant morning drink  
prevents it always.

Think of the days lost by headache, by dizziness, by stiffness. Just because the stomach isn't right, or the bowels are clogged by poisons. That's all unnecessary. Millions now prevent those lost days by an easy, pleasant method.

On rising drink a glass of water, hot or cold. That washes out in the stomach before breakfast.

Add to that water a little Jad Salts. That makes it delightful and sparkling. Jad Salts are made from acids of lemon and grape, combined with lithia.

In an hour comes a wonderful change. The poisons are eliminated. All that makes you miserable is gone.

The day becomes sunny, you become fit. You feel as you feel when a child.

You gain a day, which otherwise is lost. You place yourself at your best.

Try Jad Salts one morning in your glass of water. It will bring a revelation. You will never again let a day start wrong. All druggists have Jad Salts.—[Advertisement.]

### Beauty

A Gleamy Mass of Hair

35c "Danderine" does Wonder for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear thick as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance.

While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair becomes.—[Advertisement.]

### POLICE PISTOL RANGE OPENED

Shooting Grounds Are Given Baptism of Fire

Heath, Division Commanders Discharge First Salvo

Practice to Begin as Safety Apron is Completed

On the eve of the probable issuance of a complaint by the District Attorney, Mrs. Minnie Foss, alias Foster, her husband, Ray F. Foss, and her brother, George Wilson, proprietors of an asserted baby farm in Moneta, disappeared yesterday. Sale of one baby for \$60 is imputed to the trio, and they are believed to have made their way into Mexico, abandoning in Rivera Tuesday night an automobile they recently purchased on time payments.

Dr. H. L. Crummett of Gardena, said to have assisted in bringing the sold baby into the world, and other witnesses are to appear today before Dep. Dist. Atty. Joss, who is investigating the baby-market cases.

The last trace of the Fosses and Wilson came in a telegram Tuesday night to C. C. Hiserodt, owner of an automobile agency at Gardena. In this Hiserodt was informed that the Foss car, which they had purchased from him, had broken down and was in a garage at Rivera, where he could get it. He recovered the car yesterday, Hiserodt discovered yesterday also, he says, that the address in Long Beach given by the Fosses when they bought the car is fictitious.

The Fosses and Wilson appeared in Moneta about February 11, last, and rented a house at 14431 Massachusetts avenue, according to information said to have been obtained by Mrs. Margaret F. Birch of the State Board of Charities and Corrections. Two babies are known to have been born in the house, one of which disappeared in two hours. The other, born under the name of Hines, is the child said to have been sold for \$60. It developed eye trouble and was returned, died on February 26, last, in the General Hospital. At the Southwest Funeral Home, Ninety-fourth street and Vermont avenue, the baby was known by the name of Smith. Mrs. Foss and Wilson are said to have made the arrangements, the latter posing as the baby's father, Mrs. Foss, as its aunt. It was taken to the cemetery at Artesia. Neither the undertaker's nor the cemetery bill has been paid, it was said.

Mrs. Foss told Hiserodt, it was said, she was operating a maternity home for unfortunate girls.

Some of the Foss neighbors were inclined to believe she is identical with Mrs. Margaret Sims, arrested in Long Beach when the baby-market investigation was begun, but others were positive she is not the same, and that the child of Hiserodt was identical with the child of Hiserodt. A complaint has already been issued against Mrs. Sims.

Several persons appeared at the District Attorney's office yesterday asking information about the baby-market cases. They talked with Dep. Dist. Atty. Hammer.

"BABY MARKET" IS BEFORE STATE BOARD

(BY A. F. NIGHT WEBB)

SACRAMENTO, March 11.—The launching of an investigation by the State Board of Charities and Corrections to probe charges that a "baby market" is being maintained in Los Angeles by Mrs. Hazel Sims, Hollywood nurse, was promised today by Mrs. Amy Steinhardt Braden, secretary of the board.

The board is now in session here. Mrs. Braden also stated that if her ideas are followed out by the board, the investigation will not be confined to Los Angeles, but will take the form of a State-wide survey for the purpose of gaining information relative to the practice of baby adoption in various counties.

Mrs. Braden expressed the opinion that in many cases at least, entirely too much laxity surrounds the adoption of infants with the result that a number of serious social problems are being created in California, including the placing of babies in undesirable homes.

At the afternoon meeting the board took no definite action concerning the asserted baby market. It was stated that the board hoped to correct the asserted evil by giving publicity to such cases. There are plenty of laws governing such cases, but not enough enforcement, according to Mrs. Braden.

L. A. Richard, artist, was installed in a mimeograph display, where he sketched visitors, and a few minutes later presented them with several copies mimeographed copies of their facial characteristics. Harry Lansied of Cincinnati, inventor of an adding machine, was posted where he could deliver talks on how he hit upon the idea of the adding machine, pushing a few buttons, produced envelopes at the rate of sixty a minute.

More than 2000 members of the Los Angeles Wholesale and Retail Credit Men's Association attended the meeting of the Nevada Veterans' Hall at 246 South Main street, Monday evening in a fund-raising for the Disabled Veterans' Hall at 246 South Main street. Dancing will follow the popular program.

### EYTONS BACK FROM JAUNT

Kathlyn Williams and Her Husband Welcomed Home From Five-Months' Trip Around World

A delegation of friends and film celebrities yesterday welcomed home Charles Eytton, general manager of Paramount West Coast studio, and his wife, Kathlyn Williams, from their five-months' pleasure trip around the world. The welcoming crowd was headed by Victor H. Clarke, who has been acting in Mr. Eytton's stead during his absence, and Mrs. Clarke.

Mr. and Mrs. Eytton had many interesting incidents to relate of their travels.

The film situation in Europe was described by Mr. Eytton.

"Every country recognizes the superiority of American pictures," he said. "Even the casual observer is impressed with the tremendous development we have achieved over foreign states. The presentation of films abroad is inferior to ours. Certain studios struck me as amusing in Rome. The Roma Commandement was run as a serial. In London it was reversed, the modern phase being presented first."

"The desire to come to Hollywood for screen work was manifest wherever I went. In every place I stopped there were at least a dozen applicants to beseege me for a chance in Hollywood. Also the world in general has a hankering to come to Southern California to live."

The Chinese have reached a point where they write fan letters to their favorite screen players, according to Kathlyn Williams.

"In both China and Japan," she said, "there is a film production movement under way, but it is very crude compared with American standards. The producing companies as yet are very few, and the people prefer our pictures to any others. The Orient is very fond of western pictures and in China and Japan they seem to like our happy endings. Perhaps it is because they have enough misery in their own lives that they shy from European films which are, in the majority, of a tragic nature. I was received very graciously by

TRUTHS ABOUT  
FLORIDA TOLDClergyman Compares State  
With CaliforniaBryan's Activities Receive  
Share of CommentStrayers from Sun-Kissed  
Land Found Homesick

"You can fool nearly every man, but you can never fool nature—Burbank to the contrary. When a transplanted California seedless orange tree produces fruit full of seeds, in Florida soil, then something is radically wrong."

This is the way in which Rev. E. E. Helms, pastor of the First Methodist Church, compared the relative values of California and Florida before a crowd of more than 100 people in the dining-room of the church, at Eighth and Hope streets last night.

After giving Florida credit for many of the oldest things in the United States, including the first church, fort, postoffice and other landmarks, Dr. Helms told briefly of the paramount hospitality of the people and the average sea-level which, according to him, is a little less than one-half of nothing.

Despite the fact that the majority of the people proved conclusively three times that they did not want William Jennings Bryan in an executive position, Dr. Helms said that the noted politician delivered a thirty-minute address last night, telling of the wonders of Florida, as compared to California.

**REPLY TO BRYAN**  
"Geographically speaking, Mr. Bryan was as correct as he was with his political silver ratio," Dr. Helms said. "When he told me that it took hours of driving to reach Los Angeles Harbor and pointed out the harbor at Miami, 500 feet from where we were standing, he had me—just for a moment. I looked at the harbor and there was one small and dilapidated fishing smack—partially submerged—and it couldn't get out. That was all of the 'shipping' in sight, so it gave me great delight to explain to Mr. Bryan that Los Angeles ranged second—and second only to New York—in the amount of tonnage shipped."

"I made me lightning mad to have them tell me in Florida that Seattle was the coming port of the West—and with Seattle 250 miles west of Los Angeles. It is ridiculous, why it would mean an additional 250 miles of land and then—right straight up over the mountains—to pass or southern route like we have from Los Angeles."

**TOO HOT FOR SLEEP**  
"I concede that Florida climate varies but 2 degrees during the night. Honestly it was so hot that I didn't get a good night's sleep till I was back home."

"I complimented Mr. Bryan upon his great daily speech and answered it all in one sentence—there are more people living within the corporate limits of Los Angeles than within the whole State of Florida. While away, I met many Californians and found that there was homesick for California."

JUDGE BLEDSOE TO BE  
HONOR DINNER GUEST

Federal Judge Bledsoe and his wife will be the guests of honor at a public banquet to be given tomorrow evening by the Brotherhood of the William H. Boulevard Congregational Church in the Alexandria Hotel ballroom.

Judge Bledsoe, who is a candidate for Mayor, is an honorary president of the brotherhood, and the banquet is intended as an expression of appreciation of his services to the church. Dr. Frank Dyer, pastor of the church, and Dana E. Cox, president, have arranged the program for the banquet. Col. Milton A. McRae will speak after the banquet on his experience as a newspaper man during the forty years he was in the profession. Tickets for the banquet may be obtained by phoning 769-559, or by application at 809 Plymouth Boulevard.

## MORS SUIT DISMISSED

Action filed several weeks ago in the United States District Court by the Weitz-Milgram Corporation of New York, against Albert E. Mors to recover \$125,000 alleged to be due on a lease, was dismissed yesterday by Federal Judge James. The dismissal was granted when counsel for the plaintiff and defendant stipulated the case had been settled out of court. It was alleged the amount of the suit represented money due for rent on a store used by Mors in the conduct of his business of selling antiques. Mors was the husband of Teresa Mors, killed here last summer. Kid Mincey was found guilty of manslaughter in connection with the death.
